PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Participated in the analysis of requirements and design documentation for new software features, collaborating with cross-functional teams to ensure comprehensive test coverage.
- Created detailed test scenarios and test cases based on functional requirements and technical design specifications, ensuring alignment with business objectives.
- Executed test cases across multi-tier application environments, including **Angular** portal, **.NET** API layer, and **SQL Server** backend, identifying and documenting environmental readiness for testing.
- Raised and managed defects in **Jira**, actively participating in defect triage meetings to prioritize and assign issues for resolution.
- Performed re-testing of resolved defects to confirm fixes and ensure no regressions were introduced, maintaining application stability.
- Supported the resolution of client queries and issues related to testing environments and application functionality, contributing to a seamless user experience in a **financial services** context.

SKILLS

Testing Methodologies – Test Scenario Creation, Test Case Execution, Smoke Testing, Defect Management, Regression Testing, Environment Support

Tools & Technologies – Jira, SharePoint, MS Excel, SQL, Postman, REST Assured, .NET, Windows Server, IIS, SQL Server, Angular

Financial Services Domain – Wealth Management, Investment Services, Regulated Environments, Regulatory Testing, Compliance Testing

Automation & AI – Selenium, Playwright, Cypress, AI-assisted testing tooling

Databases & APIs – Databases, SQL, API Testing Frameworks, RESTful services

Collaboration & Communication – Written and Verbal Communication, Interpersonal Skills, Teamwork, Initiative

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Financial Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** by developing new monitoring features using **Java Spring Boot**, improving visibility into transaction flows.

- Automated the generation of operational reports using **Python** scripts, reducing manual effort by **30%** and ensuring timely delivery of critical data.
- Managed change requests and coordinated User Acceptance Testing (UAT) for system updates, ensuring smooth integration with existing enterprise systems.

Automated Test Suite for Financial Services Platform

- Developed and maintained an automated test suite for a **wealth management** platform using **Selenium** and **Java**, increasing test execution efficiency by **40%**.
- Integrated automated tests into the **Jenkins CI/CD** pipeline, enabling faster feedback loops during the software delivery lifecycle.
- Performed API testing against **.NET RESTful services** using **Postman** to validate data integrity and service responses across different client segments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
