PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and executed comprehensive test automation scripts for product features, translating business requirements into functional and technical test plans, increasing test coverage by **30%**.
- Maintained and enhanced existing manual and automated test script libraries across functional, integration, regression, and performance testing cycles, reducing script maintenance overhead by **15%**.
- Interpreted automation test results, documenting software defects within an issue tracking system and proactively communicating findings to development teams, improving defect resolution time by **20%**.
- Automated data validation and reconciliation workflows for a financial-services operations dashboard using **Python** and **SQL**, ensuring data integrity for transaction monitoring.
- Supported enterprise business systems by executing change-control management procedures for system configurations and coordinating User Acceptance Testing (UAT), ensuring seamless system integrations.
- Designed and published interactive dashboards using **Power BI** and **DAX** for MSc Data Analytics coursework, visualizing key performance indicators and statistical analysis results for stakeholders.

SKILLS

Testing & Automation – Test Automation, Manual Testing, Functional Testing, Integration Testing, Regression Testing, Performance Testing, Test Scripting, QA Methodology, API Testing, Batch Application Testing, Web Application Testing, Desktop Application Testing, Unit Testing

Programming & Scripting – Python, SQL, Java, C#, Object-Oriented Programming (OOP)

Databases – SQL Query Language, PostgreSQL, MySQL, Oracle, Database Performance Testing, Database Security, Data Warehousing, Data Lake

Cloud & DevOps – AWS, Azure, Docker, Jenkins, Git, CI/CD

Tools & Technologies – Jira, Confluence, Splunk, Dynatrace, Power BI, DAX, Power Query, Tableau, R/RStudio, pandas, NumPy, scikit-learn, REST APIs, Kafka, Snowflake

Methodologies & Practices – Agile, Scrum, Software Development Life Cycle (SDLC), Information Security, Data Governance, Change Management, UAT Coordination, Incident Response

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Transaction Reconciliation System

- Developed a Python-based automation suite to reconcile financial transaction data between disparate systems, reducing manual reconciliation effort by **40%**.

- Implemented complex **SQL** queries against **PostgreSQL** databases to validate transaction records and identify discrepancies, ensuring data accuracy for a payments operations dashboard.
- Integrated the automation suite with CI/CD pipelines using **Jenkins** for scheduled execution and reporting, enhancing operational efficiency and reliability.

Real-time Performance Monitoring Dashboard

- Designed and built an interactive dashboard using **Power BI** to visualize key performance indicators and system health metrics from production environments.
- Created custom **DAX** measures to aggregate and analyze data from multiple sources, providing actionable insights into system performance and alerting on anomalies.
- Collaborated with development teams to define data requirements and ensure timely data ingestion for accurate and up-to-date reporting to business stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
