## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** 09/2021 – 01/2025 (3.5 Years)

---

- Translated complex client business needs into clear, actionable requirements documentation and process maps for development teams, improving project clarity by **30%**.
- Analyzed and documented existing system codebases and configurations to understand current functionality, facilitating accurate technical solutioning for new features.
- Developed and maintained automated Python scripts for data extraction, transformation, and loading processes, reducing manual data handling effort by **40%**.
- Managed incident response and SLA adherence for critical enterprise applications, resolving P1/P2 issues within defined timelines and ensuring **99.9%** system availability.
- Collaborated with cross-functional teams to gather requirements and coordinate User Acceptance Testing (UAT) for system updates, streamlining the change-control process.
- Constructed and published interactive dashboards using **Power BI** and **DAX**, enabling business stakeholders to track key performance indicators and make data-informed decisions.

## SKILLS

**Consulting & Analysis** – Requirements Gathering, Process Mapping, System Analysis, Client Communication, UAT Coordination, Documentation, Data Analysis

**Programming & Scripting** – Python, Java, Spring Boot, SQL

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**Data Visualization & BI** – Power BI, DAX, Power Query, Tableau

**Databases** – PostgreSQL, MySQL, Oracle

**AI & Tools** – Cursor, Claude Code, GitHub Copilot, JIRA, Confluence

**Operating Systems** – Linux

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** 02/2026

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** 01/2021

---

## PROJECTS

### **Payments Operations Dashboard Enhancement**

- Developed **Java Spring Boot** microservices to process and monitor financial transaction flows, improving real-time visibility into payment message statuses.
- Automated data validation and reconciliation checks using **Python** scripts, reducing manual error rates in transaction processing by **18%**.

- Implemented enhanced alerting mechanisms within the **payments operations dashboard**, reducing incident response time for failed transactions by **25%**.

#### **Retail E-commerce Analytics Platform**

- Designed and built interactive **Power BI** dashboards to visualize sales performance, inventory levels, and customer order fulfilment metrics for a retail client.
- Extracted and transformed data from various sources using **SQL** and **Power Query**, creating a centralized data model for comprehensive business reporting.
- Applied statistical analysis techniques using **Python (pandas, NumPy)** to identify trends in order management and forecast demand, contributing to a **10%** improvement in inventory accuracy.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
