+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Diagnosed complex equipment issues for frontline service engineers and customers, providing clear, actionable recommendations that reduced average resolution time by **15%**.
- Analyzed fault patterns and technical data from rotating equipment, translating findings into corrective actions to maintain operational reliability and meet strict service response obligations.
- Captured, retained, and shared technical knowledge across the service organization, developing documentation for common issues that decreased repeat incidents by **10%**.
- Served as the central technical contact for troubleshooting, acting as the primary escalation point for complex problems and liaising with global technical experts for timely resolutions.
- Supported service continuity during periods of increased workload by proactively managing technical escalations and assisting field engineers with intricate diagnostic challenges.
- Contributed to overall service performance by ensuring accurate and timely technical responses to customers, enhancing satisfaction and reinforcing the company's reputation for reliable service delivery.

SKILLS

Technical Support – Troubleshooting, Fault Diagnosis, Technical Escalation, Customer Support, Stakeholder Management.

Engineering Equipment – Mechanical Equipment, Electrical Equipment, Rotating Equipment, Pumps.

Data Analysis – Technical Data Analysis, Fault Pattern Analysis, Equipment Behaviour Analysis, Root Cause Analysis.

Problem Solving – Analytical Skills, Diagnostic Skills, Complex Problem Solving, Continuous Improvement.

Communication & Knowledge Sharing – Technical Communication, Knowledge Retention, Training Material Development, Internal Collaboration.

Software & Tools – Jira, Confluence, Splunk, Dynatrace, CloudWatch, Python, SQL, Java Spring Boot.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Industrial Equipment Diagnostic Support Platform

- Developed a knowledge base and diagnostic tool to assist field service engineers in identifying root causes for complex equipment failures, drawing on historical incident data.
- Integrated technical data feeds from monitoring systems (e.g., **Splunk**, **CloudWatch**) to provide real-time insights into equipment behaviour and potential fault indicators.

- Designed workflows for escalating critical issues to specialized engineering teams, ensuring timely resolution and minimizing customer downtime.

Service Operations Performance Dashboard

- Created interactive dashboards using **Power BI** to visualize key performance indicators (KPIs) for service operations, including response times, resolution rates, and equipment uptime.
- Developed complex **DAX** measures and Power Query transformations to aggregate and analyze data from various sources, providing actionable insights for operational improvements.
- Published and presented reports to stakeholders, facilitating data-informed decision-making to enhance service delivery and customer satisfaction.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
