PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production support for enterprise Java applications, responding to P1/P2 incidents and maintaining SLAs across systems monitored by **Splunk** and **CloudWatch**.
- Automated data pipeline tasks and scheduled reporting using **Python** scripting, reducing manual processing time by **30%**.
- Developed and enhanced **Java Spring Boot** REST APIs for core services, supporting new feature integrations and bug resolutions.
- Refactored relational database queries and implemented strategic indexing on **PostgreSQL** and **Oracle**, improving data retrieval performance by **22%** for analytical reports.
- Designed and implemented automated deployment pipelines using **Jenkins** and **Git**, increasing deployment frequency by **40%** and reducing manual errors.
- Collaborated with business analysts and operations teams to gather requirements, coordinate UAT, and provide post-implementation support for enterprise business systems and ERP integrations.

SKILLS

Core Engineering – Python, Java, Spring Boot, REST APIs, Docker, Linux, Shell Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Power Query

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Business Intelligence & Analytics – Power BI, Tableau, DAX, R, pandas, NumPy, scikit-learn

Project Management & Support – Jira, Confluence, Agile/Scrum, Incident Response, Change Management

Systems & Integrations – ERP Systems, Cross-System Integrations

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Payments Operations Dashboard Enhancements

- Developed Python scripts to automate the extraction and transformation of transaction data for a financial-services operations dashboard, feeding into reconciliation workflows.
- Implemented real-time monitoring and alerting for failed payment messages using **Splunk**, reducing average detection time for critical issues by **25%**.

- Collaborated with business analysts to define requirements for new transaction monitoring features, ensuring compliance with GDPR and audit trail specifications.

Automated Trading System Monitoring and Alerting

- Built and enhanced automation tools using **Python** to reduce manual intervention in trading system support, focusing on log analysis and system behavior investigation.
- Integrated monitoring alerts from custom trading applications into a centralized dashboard using **CheckMk**, improving proactive issue detection for critical trading environments.
- Diagnosed and resolved complex application and system issues by performing in-depth log analysis across distributed systems and correlating events from various sources.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
