PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **incident resolution** for enterprise applications, responding to P1/P2 incidents and achieving **99.9% SLA adherence** across critical systems.
- Automated data extraction and reporting processes using **Python scripts**, reducing manual effort by **40%** and improving data delivery timelines.
- Developed and maintained **Java Spring Boot** REST APIs for new service integrations, supporting a **15% increase** in system throughput.
- Supported live operational systems within a **healthcare** client environment, ensuring service continuity and stability for thousands of enterprise users.
- Collaborated with cross-functional teams to implement **change management** procedures for system updates, coordinating UAT and post-go-live support across interconnected platforms.
- Designed and deployed interactive **Power BI** dashboards to visualize operational KPIs, enabling stakeholders to make data-informed decisions and improving reporting efficiency by **30%**.

SKILLS

Core Technologies – Java, Spring Boot, Python, SQL, Linux, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Support – Splunk, Dynatrace, CloudWatch, ITIL Framework, Incident Management, Problem Management

Business Intelligence & Analytics – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn

Enterprise Systems – ERP Systems, Application Support, Change Management, UAT

Languages – English (B2+), German (B2+)

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Healthcare Operations Monitoring Dashboard

- Developed a **Python**-based data pipeline to ingest and process operational logs from distributed healthcare systems.
- Built interactive visualizations and alerts in **Power BI** to monitor system health, identify performance bottlenecks, and ensure **99.95%** service availability.

- Implemented data validation and reconciliation checks using **SQL** queries against a **PostgreSQL** database to maintain data integrity for patient support services.

Automated Service Request Management System

- Created a **Java Spring Boot** application to manage and automate IT service requests within an enterprise environment.
- Integrated with ticketing systems via **REST APIs** to streamline incident logging and resolution, reducing average ticket handling time by **20%**.
- Designed the system architecture to support secure data handling and audit trails, aligning with **GDPR** principles for user data protection.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
