PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Managed the incident lifecycle for enterprise applications within the **financial-services domain**, resolving over **150 P1/P2 incidents** and ensuring adherence to strict service level agreements.
- Automated data extraction and transformation processes using **Python scripts**, reducing manual reporting effort by **40%** and improving data pipeline efficiency.
- Developed and maintained **Java Spring Boot** microservices, implementing new features and REST APIs that supported core business operations.
- Supported live operational systems for **hospitals across the EU**, performing incident management and service request fulfillment to maintain high availability.
- Collaborated with cross-functional teams to manage system configurations and coordinate User Acceptance Testing (UAT) for enterprise business systems, facilitating smooth change management.
- Designed and deployed interactive **Power BI dashboards**, aggregating data from multiple sources to provide actionable insights for business stakeholders and support continuous service improvement.

SKILLS

IT Support & Operations – Incident Management, Service Request Management, Problem Management, ITIL Framework, Change Management, Production Support, Monitoring, SLA Management

Programming & Scripting – Python, Java, Spring Boot, SQL, Shell Scripting, R

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Modelling, Data Warehousing, DAX, Power Query

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

CI/CD & Version Control – Jenkins, Git

Operating Systems & Tools – Linux, Windows Server, Splunk, Dynatrace, Jira, Confluence

Languages – English (B2+), German (B2+)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Healthcare Operations Monitoring Dashboard

- Developed a **Power BI dashboard** to monitor key operational metrics for hospital systems across the EU, visualizing service uptime and incident resolution times.
- Ingested and processed data from disparate systems using **Python and SQL**, creating robust ETL pipelines for the dashboard's data model.

- Collaborated with business analysts to define reporting requirements, ensuring the dashboard met the needs of stakeholders for managing live systems.

Automated Service Restoration Workflow

- Engineered an automated workflow using **Python and AWS Lambda** to quickly restore services during common incident scenarios, reducing average recovery time by **20%**.
- Integrated with monitoring tools like **Splunk** to trigger automated remediation scripts based on predefined alert conditions.
- Implemented comprehensive logging and error handling within the automation scripts to ensure reliability and facilitate troubleshooting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
