PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Supported the planning and coordination of precast concrete projects, ensuring adherence to **project specifications** and timelines, contributing to a **15% reduction** in project delays.
- Assisted with **production processes** for precast concrete elements, maintaining high standards of **efficiency and quality**, which improved output consistency by **10%**.
- Collaborated with **design teams** to integrate and coordinate drawings and technical details, facilitating smoother transitions from design to production phases.
- Monitored **project progress** against delivery timelines, preparing detailed technical reports and documentation to support **programme delivery**.
- Participated in stringent **quality control processes**, ensuring all precast concrete products met rigorous **company standards** and client requirements.
- Prepared **technical reports and project records**, contributing to comprehensive documentation for project lifecycle management and audit trails.

SKILLS

Core Engineering – Structural Engineering, Construction Methods, Engineering Principles.

Software & Tools – Microsoft Office Suite, CAD Software (advantageous).

Project Management – Project Planning, Coordination, Programme Delivery, Quality Control, Health & Safety.

Data Analysis – Numerical Skills, Analytical Skills, Data Reporting, Technical Documentation.

Collaboration – Cross-functional Teamwork, Communication Skills, Interpersonal Skills, Stakeholder Collaboration.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Precast Concrete Production Optimization Platform

- Developed a Python-based system to streamline the tracking of precast concrete production workflows, integrating with existing operational data.
- Implemented automated reporting features in Python that summarized daily production metrics, improving visibility for management and reducing manual reporting effort by **30%**.
- Designed and maintained a PostgreSQL database schema to store detailed production logs, facilitating historical analysis and quality assurance checks.

Construction Project Coordination Dashboard

- Built an interactive dashboard using **Power BI** to visualize key performance indicators for construction projects, consolidating data from various sources.
- Created complex **DAX measures** to track project progress, budget adherence, and resource allocation, providing actionable insights to project managers.
- Published and shared reports with cross-functional teams, enhancing communication and decision-making across commercial, operations, and site teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
