

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Python** scripts to automate data ingestion and transformation processes, reducing manual effort by **30%**.
- Designed and maintained **Java Spring Boot** REST APIs for new feature development, integrating with existing microservices and improving system responsiveness.
- Managed production support for enterprise applications, responding to critical incidents and performing root cause analysis using **Splunk** and **Dynatrace** to meet strict SLAs.
- Built interactive dashboards and data visualizations in **Power BI**, translating complex datasets into actionable business insights for stakeholders.
- Implemented data cleansing and structuring techniques for large, complex datasets, enabling downstream analytics and machine learning model training.
- Collaborated with cross-functional teams to support enterprise business systems, coordinating change management processes and UAT for system integrations.

SKILLS

Programming Languages – Python, R, SQL, Java

Machine Learning – Scikit-learn, TensorFlow, PyTorch, LDA, Clustering, Segmentation, OLS, Multinomial Logistic Regression

Data Platforms & Tools – Databricks, Spark, Hadoop, Power BI, Tableau, Power Query, DAX

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

AI Concepts – Artificial Intelligence, Generative AI, Agentic AI

Development Frameworks – Spring Boot, Flask, FastAPI, NestJS

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Transaction Monitoring Dashboard

- Developed a **payments operations dashboard** using **Python** for data aggregation and **Power BI** for visualization, enabling real-time monitoring of transaction flows.
- Implemented automated alerting mechanisms for failed or delayed payment messages, reducing manual oversight by **40%** and improving incident response times.

- Ensured adherence to regulatory requirements and GDPR standards by maintaining detailed audit trails and secure data handling practices.

Predictive Analytics for Customer Segmentation

- Applied **clustering and segmentation** techniques in **Python** with **Scikit-learn** to analyze customer data from a large enterprise dataset.
- Built and validated machine learning models to identify distinct customer segments, informing targeted marketing strategies and improving campaign effectiveness by an estimated **15%**.
- Presented findings and insights through interactive **Power BI** dashboards, facilitating data-driven decision-making for business stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
