PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Managed the **shipping and receiving** of IT equipment for a **high-security data centre**, processing over 500 inbound and outbound shipments monthly.
- Maintained accurate **stock control and inventory systems**, ensuring physical assets aligned with system records through rigorous **serial number tracking**.
- Organised warehouse and storage areas to ensure **efficient, safe, and compliant stock management**, improving retrieval times by **15%**.
- Tracked and managed asset lifecycle activities, including **installations, relocations, and returns (RMA)**, supporting a fleet of over 1,000 IT assets.
- Coordinated closely with **operations teams and security personnel** to support daily data centre activities and ensure operational continuity.
- Supported audits and cycle counts, performing **inventory checks** that maintained **99.8% data accuracy** and adherence to chain-of-custody requirements.

SKILLS

Logistics & Inventory – Shipping, Receiving, Stock Control, Asset Management, Warehouse Operations, RMA Processing, Cycle Counting, Chain of Custody

Data Centre Operations – Data Centre Environment, IT Equipment Handling, Security Protocols, Access Protocols

Technical Skills – Linux, Shell Scripting, Python Scripting, SQL, AWS (EC2, S3, Lambda, CloudWatch), Docker

Software Development Tools – Git, Jenkins, Jira, Confluence

Data Analysis & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, R, pandas, NumPy

Enterprise Systems – ERP Systems, Change Management, REST APIs, Production Support

Financial Services Domain – Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, Regulatory Awareness (GDPR)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Data Centre Asset Tracking System

- Developed a Python-based system to manage the lifecycle of IT assets within a simulated data centre environment.

- Implemented features for logging equipment details, tracking installations, relocations, and decommissioning processes, ensuring **accurate asset visibility**.
- Integrated basic reporting capabilities using pandas to generate summaries of asset status and movement trends.

Inventory Management Dashboard

- Created an interactive dashboard using **Power BI** to visualize inventory levels, stock movement, and asset status for a logistics operations unit.
- Designed data models and DAX measures to track key performance indicators such as **on-time delivery rates** and stock accuracy.
- Connected to multiple data sources via Power Query to consolidate and transform data for reporting to stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
