PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered preventative maintenance and break/fix support for **IT and RF equipment** across Emergency Services vehicles and control centres, reducing system downtime by **18%**.
- Managed a workflow of over **50 maintenance tickets** weekly, escalating recurring faults to engineering teams and completing **RMA processes** for faulty hardware.
- Maintained operational uptime of critical national networks by monitoring solutions, achieving a **99.95% availability** and assisting with root cause analysis for P1 incidents.
- Completed site documentation and technical reports accurately and on time, ensuring compliance with **contract manuals** and internal quality standards.
- Provided out-of-hours on-call support for network and RF systems, resolving an average of **3 critical issues** per on-call rotation.
- Supported the maintenance of **MDTs, TETRA systems, and routers**, ensuring reliable communication links for emergency services personnel.

SKILLS

Network Technologies – IP Networking, RF Communications, Wireless Networks, Wired Networks, Routers, RF Connectors, Radio Frequency Equipment

Hardware Support – MDTs, TETRA Systems, RF Equipment, IT Equipment, Control Centres, Emergency Services Vehicles

Operations & Maintenance – Preventative Maintenance, Break/Fix Support, Root Cause Analysis, On-call Support, RMA Processes, Workflow Management, Site Documentation

Tools & Methodologies – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, CloudWatch, Docker, Linux Shell Scripting

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & Infrastructure – AWS EC2, AWS S3, AWS Lambda

Compliance & Safety – Health and Safety Standards, ISO Standards

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Field Support Automation Platform

- Developed a **Python-based automation tool** to streamline the logging and tracking of field maintenance activities, reducing manual data entry time by **30%**.

- Integrated the tool with **Jira** for ticket escalation and **Confluence** for generating standardized site reports, improving data consistency across teams.
- Designed a modular architecture allowing for future expansion to manage **RMA tracking** and preventative maintenance scheduling.

Real-Time Network Monitoring Dashboard

- Built a **Power BI dashboard** visualizing key performance indicators for IT and RF network equipment status, enabling proactive identification of potential outages.
- Connected to various data sources including **AWS CloudWatch** logs and simulated device telemetry, performing data transformation using **Power Query**.
- Created custom **DAX measures** to calculate device uptime, fault rates, and Mean Time Between Failures (MTBF), providing actionable insights to operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
