

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Python** scripts to automate routine security checks, reducing manual effort by **30%** and improving detection speed for common vulnerabilities.
- Investigated and responded to production alerts from **Splunk** and **Dynatrace**, diagnosing P1/P2 incidents within strict SLA targets for a financial-services operations dashboard.
- Refactored inefficient **SQL** queries across **PostgreSQL** and **Oracle** databases, enhancing data retrieval performance for critical transaction monitoring workflows by up to **25%**.
- Implemented new features and resolved bugs in **Java Spring Boot** applications, contributing to the development of REST APIs that facilitated cross-system integrations.
- Managed CI/CD pipelines using **Jenkins** and **Git** for enterprise applications, ensuring code quality through rigorous reviews and automated testing processes.
- Supported audit evidence collection by documenting system configurations and change management processes for regulatory compliance, including GDPR requirements.

SKILLS

Security Operations – Vulnerability Management, Threat Response, SIEM, EDR, DLP, Bug Bounty Triage, Incident Response, Darkweb Monitoring

AI & Machine Learning – LLM Agents, Prompt Engineering, RAG Pipelines, OpenAI, Anthropic, Generative AI

Programming & Scripting – Python, Bash, Java, Spring Boot, REST APIs

Databases & Data Handling – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Data Modelling

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Linux

Development Tools & Methodologies – Jenkins, Git, Jira, Confluence, Agile, Scrum

Business Intelligence & Analytics – Power BI, Tableau, DAX, Power Query, R

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Security Triage Agent

- Developed a **Python**-based agent simulating triage for bug bounty reports, using prompt engineering to classify incoming issues and identify potential duplicates.
- Integrated with simulated SIEM data to provide context for investigation, drafting initial remediation steps for common vulnerability classes.

- Designed the agent to reduce manual triage time by an estimated **40%** for low-complexity reports, allowing human analysts to focus on novel or high-impact findings.

Automated Transaction Monitoring Dashboard

- Built a **Python** ETL pipeline to process and aggregate transaction data from multiple sources into a central **PostgreSQL** data warehouse.
- Created interactive dashboards in **Power BI** visualizing key operational metrics, reconciliation workflows, and alerting on failed payment messages for stakeholders.
- Implemented data validation checks and schema evolution management, ensuring data integrity and supporting 99.9% uptime for the reporting service.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
