PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed end-to-end feature ownership for product initiatives, including discovery, detailed specification writing, and post-launch performance measurement, resulting in a **15% increase** in feature adoption.
- Translated customer feedback and market analysis into prioritized product backlogs, aligning development efforts with strategic goals and customer impact, leading to a **20% improvement** in user satisfaction scores.
- Designed and documented acceptance criteria for new features, enabling engineering teams to build complex functionalities with an average of **95% adherence** to original specifications.
- Integrated and analyzed data from multiple sources, including **API logs** and **SQL databases**, to inform product decisions and identify key user behavior patterns, reducing reliance on subjective opinions by **40%**.
- Collaborated with engineering, design, and go-to-market teams to ensure seamless product delivery, coordinating cross-functional efforts to accelerate release cycles by an average of **10%**.
- Developed and applied **machine learning models** to analyze product usage patterns and identify churn signals, directly contributing to a **5% reduction** in customer attrition.

SKILLS

Product Management – Feature Ownership, Backlog Prioritization, Acceptance Criteria, Customer Feedback Analysis, Go-to-Market Coordination

Data Analysis & AI/ML – SQL, Data Analysis, Machine Learning, Churn Signals, Usage Patterns, AI/ML Application

Technical Fluency – APIs, Technical Documentation, System Integrations, Software Development Lifecycle

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & DevOps – AWS, Docker, CI/CD, Jenkins, Git

Data Visualization & BI – Power BI, DAX, Tableau, Power Query

Enterprise Systems – ERP Integration, Change Management, Production Support

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Payments Operations Dashboard Enhancement

- Developed new features for a **payments operations dashboard** to improve transaction monitoring and alerting for financial services clients.
- Authored detailed technical specifications and acceptance criteria for enhancements to **transaction reconciliation workflows**, ensuring clarity for the development team.

- Analyzed operational data using **SQL** and integrated insights into the dashboard to provide stakeholders with actionable metrics on payment message processing.

Customer Analytics Platform

- Designed and implemented a data pipeline using **Python** and **SQL** to aggregate customer usage data from various sources for a new analytics platform.
- Built interactive dashboards in **Power BI**, incorporating **DAX** measures to visualize key performance indicators and customer behavior patterns for product teams.
- Applied **machine learning** fundamentals to develop a model for predicting customer churn, integrated as a component of the analytics platform.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
