PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed daily fund accounting operations for a portfolio of ETFs, ensuring accurate net asset value (NAV) calculations and expense allocations, meeting **99.9% SLA adherence**.
- Streamlined cash and asset reconciliation processes for complex fund transactions, reducing reconciliation discrepancies by **15%** through enhanced data validation checks.
- Developed Python scripts to automate the generation of client performance reports, cutting down manual reporting time by **40%** and improving data accuracy.
- Collaborated with business analysts and operations teams to gather requirements for a new transaction monitoring dashboard, facilitating **improved operational visibility** for failed payment messages.
- Supported cross-system integrations between ERP modules and financial platforms using **Java Spring Boot REST APIs**, ensuring seamless data flow for enterprise business systems.
- Analyzed and resolved escalated operational issues within daily, weekly, and monthly accounting and reporting cycles, minimizing client impact and ensuring timely task completion.

SKILLS

Core Accounting & Finance – Net Asset Value (NAV) Calculation, Fund Performance, Expense Allocation, Cash Reconciliation, Asset Reconciliation, Client Reporting, Basket Production Workflow.

Programming & Scripting – Python, Java, Spring Boot, REST APIs, SQL.

Data Analysis & BI Tools – Power BI, Tableau, DAX, Power Query, Data Modelling, R, RStudio, pandas, NumPy, scikit-learn.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Enterprise Systems & Operations – ERP Systems, Financial Services Operations, Transaction Monitoring, Reconciliation Workflows, Production Support, Incident Response, Change Management, Linux.

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

ETF Transaction Reconciliation Dashboard

- Developed an interactive dashboard using **Power BI** to visualize and reconcile complex ETF transactions across multiple funds, enhancing oversight for accounting teams.
- Implemented custom **DAX measures** for anomaly detection in transaction reconciliation, flagging discrepancies for immediate review and reducing manual error rates by **20%**.

- Integrated data from disparate sources using **Power Query**, creating a unified view of transaction flows and supporting efficient client query resolution.

Automated Financial Operations Alerting System

- Built a **Python**-based system to monitor financial transaction flows and trigger automated alerts for failed or delayed messages, supporting a large financial services client.
- Designed and implemented RESTful APIs using **Flask** for seamless integration with existing operational platforms, enabling real-time data ingestion and status updates.
- Deployed the system on **AWS EC2** instances managed via **Jenkins** pipelines, ensuring high availability and automated deployment for the critical alerting service.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
