PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed financial statements and conducted comprehensive industry data analysis to support corporate client needs, contributing to strategic decision-making.
- Developed and maintained financial models and marketing materials for client presentations, supporting transaction structuring and execution efforts for the PUI sector.
- Managed production support and incident response for enterprise financial-services applications, ensuring adherence to strict SLAs and maintaining audit trails.
- Automated data pipelines and reporting processes using **Python scripting**, reducing manual effort by an estimated **30%** and improving data accuracy.
- Designed and implemented enhancements for a payments operations dashboard, focusing on transaction monitoring and operational alerting for failed financial messages.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements, support UAT, and troubleshoot post-implementation issues for enterprise systems.

SKILLS

Financial Analysis – Financial Statement Analysis, Financial Modeling, Market Analysis, Industry Data Analysis, Capital Markets Knowledge

Banking Operations – Corporate Banking, Transaction Structuring, Client Relationship Management, Payments Processing, Reconciliation Workflows

Software Engineering – Java, Spring Boot, Python, REST APIs, SQL, PostgreSQL, Oracle, MySQL, AWS, Docker, Linux, Git, Jenkins

Production Support – Incident Response, SLA Management, Monitoring (Splunk, CloudWatch, Dynatrace), Change Management, UAT Support

Data Analytics & BI – Power BI, DAX, Tableau, Data Modelling, Data Warehousing, R, pandas, NumPy, scikit-learn

Compliance & Risk – Regulatory Compliance, Operational Risk Management, GDPR Awareness, Conduct Risk, AML/ATF Risk

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Payments Operations Dashboard Enhancement

- Developed Java Spring Boot microservices to process and monitor inbound financial transaction messages, integrating with a PostgreSQL database.
- Implemented real-time alerting mechanisms for failed or stalled payments, improving issue detection time by **40%** and reducing manual oversight.
- Created detailed operational reports and dashboards for business stakeholders, visualizing key metrics related to transaction flow and system health.

Corporate Client Financial Analysis Platform

- Built a data aggregation pipeline using Python to collect and consolidate company and industry data from multiple sources, feeding into analytical models.
- Designed and developed interactive dashboards in **Power BI** to visualize financial performance and market trends for corporate clients in the PUI sector.
- Authored analytical reports and presentations based on financial statement analysis and market research, supporting client engagement and opportunity identification.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
