PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and resolved production issues for enterprise applications, maintaining **99.9% SLA compliance** through proactive monitoring with **Splunk** and **Dynatrace**.
- Developed and automated data pipelines using **Python**, improving data extraction and transformation efficiency by **30%** for scheduled reporting.
- Designed and implemented enhancements for a financial-services operations dashboard, focusing on **transaction monitoring** and **reconciliation workflows**.
- Supported cross-system integrations for ERP and business platforms via **REST APIs** and direct database interactions, ensuring data consistency across PostgreSQL and Oracle.
- Configured and maintained reporting interfaces for outbound data extracts, addressing post-implementation discrepancies and collaborating with client integration teams.
- Analyzed and troubleshooted data issues reported by operations teams, implementing timely workarounds and contributing ideas for process efficiencies and **automation**.

SKILLS

Data Operations & Reporting – Standard Extracts, Outbound Reporting, Client Integration, Vendor Management, Data Exchange, Troubleshooting

Data Analysis & BI – Power BI, DAX, Tableau, Data Modelling, Power Query, MS Excel

Programming & Scripting – Python, Java, Spring Boot, SQL, R

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, SQL Server (T-SQL), Data Warehousing

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

DevOps & CI/CD – Jenkins, Git, CI/CD Pipelines

Financial Services Domain – Payments Operations, Transaction Monitoring, Reconciliation Workflows, Regulatory Compliance (GDPR)

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Transaction Monitoring Dashboard

- Developed a **Java Spring Boot**-based dashboard for a financial services client to monitor inbound transaction message flows and identify processing errors.
- Integrated with **PostgreSQL** to retrieve and display real-time transaction status, supporting **audit trail** requirements and reconciliation activities.

- Automated alert generation for failed payments using **Python scripts**, reducing manual review time by **25%**.

Outbound Data Extract Automation Platform

- Designed and built a modular platform using **Python** and **FastAPI** to manage and automate the generation of standard outbound data extracts for enterprise clients.
- Implemented robust error handling and logging mechanisms, integrating with **AWS CloudWatch** for monitoring and alerting on extract failures.
- Configured data transformation logic using **Power Query** and **DAX** to prepare data for reporting and client delivery, ensuring data integrity and adherence to specifications.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
