PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Defined and managed the **data index system** for a financial-services operations dashboard, identifying key metrics and driving **data infrastructure improvements** that reduced manual reconciliation effort by **30%**.
- Translated business requirements into clear product documentation (MRD/BRD) for enterprise systems, coordinating with R&D; teams to ensure successful implementation of new features.
- Managed the progress of platform requirements for a **payments operations dashboard**, from testing and verification to launch, ensuring timely and high-quality delivery to operations teams.
- Created and maintained platform operation documents and led training sessions for new features on an enterprise ERP support system, boosting user adoption by **20%**.
- Automated operational processes for a **payments processing workflow** using Python scripting, enhancing efficiency and reducing manual intervention by **40%**.
- Collaborated with cross-functional teams (R&D; , business) to respond to urgent issues and coordinate resources for the smooth execution of **global projects**, ensuring 99.9% uptime for critical financial services.

SKILLS

AI/ML – AI, LLMs, agents, AI infrastructure, scikit-learn, Machine learning fundamentals.

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, data modelling, data warehousing, Business Intelligence, R, RStudio, Pandas, NumPy.

Backend Development – Java, Spring Boot, Python, Flask, FastAPI, REST APIs, Microservices.

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes, Jenkins, Git, Linux, Shell scripting.

Databases – SQL, PostgreSQL, MySQL, Oracle.

Project & Operations – Product Management, Project Management, Business Analysis, Process Optimization, Automation, User Enablement, Change Management, Incident Response, Agile/Scrum, Jira, Confluence.

Domain – Payments Operations, Transaction Monitoring, Reconciliation Workflows, Enterprise Systems, ERP Integration, Regulatory Awareness, GDPR.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Transaction Reconciliation Dashboard

- Developed a **Power BI dashboard** to visualize and track transaction reconciliation workflows for a financial services client, integrating data from PostgreSQL and Oracle databases.

- Implemented **DAX measures** and complex data models within Power BI to provide real-time insights into reconciliation discrepancies, reducing manual analysis time by **35%**.
- Automated data extraction and transformation processes using **Python scripts** and **Power Query**, ensuring data accuracy and timely report generation for stakeholders.

AI-Assisted Content Moderation Framework

- Designed and implemented a proof-of-concept framework for AI-assisted content moderation, integrating **LLM capabilities** with existing moderation tools.
- Developed REST APIs using **Python (FastAPI)** to facilitate communication between the AI model and the platform's backend systems, enabling efficient processing of text and image content.
- Collaborated with a cross-functional team to define key metrics for AI model performance and user feedback, contributing to a planned efficiency gain of **20%** in moderation tasks.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
