PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Responded to and resolved high-priority customer escalations for **Toast APIs and Integrations**, maintaining service level agreements (SLAs) for critical support tickets.
- Performed advanced troubleshooting on **integration issues** by analyzing logs in **Splunk** and utilizing **Postman** to diagnose and resolve API endpoint failures, reducing average resolution time by **15%**.
- Managed direct customer calls and vendor interactions, clearly communicating technical issues and setting expectations for resolution timelines, leading to a **95%** customer satisfaction rating on resolved tickets.
- Documented support tickets comprehensively within the ticketing system, capturing detailed problem descriptions and successful resolution steps for knowledge base contribution and team reference.
- Collaborated with **Senior API Integrations Experts** to escalate complex technical challenges, ensuring timely and effective solutions for demanding customer and partner integrations.
- Collected and synthesized customer and vendor feedback on integration performance and product behavior, acting as the voice of the customer to inform continuous improvement initiatives.

SKILLS

Customer Support – Technical Support, API Support, Integration Support, Escalation Management, Vendor Management, Customer Satisfaction.

Technical Tools – Splunk, Postman, Jira, Confluence.

API & Integrations – REST APIs, API Integrations, System Troubleshooting, Data Analysis.

Communication – Bilingual (English/French), Verbal Communication, Written Communication, Stakeholder Communication.

Core Technologies – Python, Java, SQL, AWS, Linux, Docker, Git, Jenkins.

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Payments Reconciliation & Transaction Monitoring Dashboard

- Developed and maintained a **payments operations dashboard** for enterprise financial-services clients, providing real-time monitoring of transaction flows and operational alerts for failed messages.
- Implemented automated data ingestion pipelines using **Python** and **SQL** against PostgreSQL databases, ensuring timely reconciliation of high-volume financial transactions.

- Designed and deployed interactive visualizations in **Power BI** to present key operational metrics and audit trails to business stakeholders, improving visibility into processing exceptions by **30%**.

API Integration Troubleshooting Framework

- Engineered a Python-based framework to automate the testing and validation of **REST APIs**, simulating common integration scenarios and identifying potential issues before production deployment.
- Integrated **Splunk** logging and alerting into the framework to capture detailed error messages and performance metrics during automated test runs, reducing manual debugging effort by **40%**.
- Developed standardized troubleshooting playbooks for common API integration failures, enabling faster response times and resolution for technical support teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
