PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Power BI** dashboards, incorporating **DAX** measures and complex data models to deliver actionable insights to business stakeholders, improving decision-making speed by **15%**.
- Automated data extraction, transformation, and loading processes using **Python** scripts and **SQL**, reducing manual reporting effort by **20%** and ensuring data accuracy for daily operational reports.
- Managed production support for enterprise applications, performing incident response and root cause analysis using monitoring tools like **Splunk** and **Dynatrace**, consistently meeting **99.9%** SLA targets.
- Engineered REST APIs with **Java Spring Boot** to facilitate cross-system integrations, enhancing data flow between core banking modules and external partner platforms.
- Supported and troubleshooted enterprise business systems, including **ERP** modules, coordinating change management processes and UAT for system configuration updates across interconnected platforms.
- Designed and implemented interactive dashboards in **Tableau** for visualizing call centre performance metrics, providing operational teams with clear overviews of KPIs such as AHT, Resolve Rate, and Shrinkage.

SKILLS

Business Intelligence – Power BI, Tableau, DAX, Power Query, Data Modelling, Reporting, Business Objects

Data Analysis & Mining – SQL, MSQL, Python (pandas, NumPy, scikit-learn), R, Statistical Analysis, Data Warehousing, ETL

Programming & Scripting – Python, Java, Spring Boot, REST APIs, VBA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Operations & Support – Production Support, Incident Response, SLA Management, Change Management, Jira, Confluence, Linux

Domain Knowledge – Call Centre Operations, WFM, Performance Management, Financial Services Dashboards, Transaction Monitoring, Reconciliation Workflows

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Operations KPI Dashboard for Financial Services Client

- Developed a comprehensive **Power BI** dashboard to monitor key performance indicators for a financial services operations team, focusing on transaction processing and reconciliation workflows.
- Integrated data from multiple sources using **SQL** queries and **Power Query**, creating robust data models to support real-time reporting on payment message statuses.

- Automated report generation and distribution, enabling stakeholders to access daily performance insights, which led to a **10%** improvement in identifying and resolving transaction anomalies.

Automated Performance Reporting System

- Built a data pipeline using **Python** and **SQL** to aggregate and transform call centre operational data, including staffing, adherence, and agent KPIs like AHT and Resolve Rate.
- Designed and deployed interactive dashboards in **Power BI** to visualize performance trends and highlight areas for operational improvement, supporting workforce planning and efficiency initiatives.
- Implemented scheduled reporting jobs via **Jenkins**, ensuring timely delivery of weekly and daily performance summaries to management and operational teams, reducing manual collation time by **30%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
