PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Supported **production environments** for a financial-services client by monitoring transaction flows and implementing operational alerting for failed payment messages, sustaining 99.9% processing uptime.
- Developed and maintained **Python scripts** for data pipelines, ETL processes, and automated scheduled reporting, reducing manual data compilation time by **40%**.
- Enhanced **Java Spring Boot** services by developing new REST APIs and resolving complex bugs, contributing to a **15%** improvement in application response times.
- Designed and implemented interactive **Power BI dashboards** and data models for business stakeholders, translating complex datasets into actionable insights for operational teams.
- Managed **SQL database** schema changes and data validation across PostgreSQL and Oracle, ensuring data integrity for critical enterprise business systems.
- Collaborated with operations teams and business analysts to gather requirements, coordinate User Acceptance Testing (UAT), and provide post-implementation support for enterprise systems.

SKILLS

Reporting & BI – Power BI, DAX, Tableau, Business Objects, Operational Reporting, KPI Development

Data Management – SQL, MSQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Data Mining, Data Structures

Programming & Scripting – Python, Java, Spring Boot, REST APIs, VBA, R

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Change Management, Incident Response, Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Payments Operations & Reconciliation Dashboard

- Developed a comprehensive **Power BI dashboard** to monitor transaction flows and reconciliation workflows for a financial-services client, providing real-time operational alerting.
- Implemented **SQL queries** and data transformations using Power Query to aggregate and validate transaction data from multiple sources, ensuring accuracy for reporting.
- Collaborated with cross-functional teams to define key operational KPIs and present insights on performance variance and process improvements to senior stakeholders.

Automated Reporting Pipeline for Enterprise Systems

- Engineered an **automated Python-based pipeline** to extract, transform, and load data from enterprise business systems into a central data store for reporting.
- Integrated the pipeline with **Jenkins CI/CD** for automated deployment and scheduled execution, ensuring timely delivery of daily and weekly operational reports.
- Supported system integrations using **REST APIs** and database-level data flows, contributing to enhanced data consistency across interconnected platforms.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
