

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Prepared and optimized **3D print files** for customer jobs, producing prototype parts and performing post-processing including cleaning and finishing, achieving a **98% first-time-right rate**.
- Conducted **3D scanning demonstrations** for prospective customers using handheld and desktop scanners, advising on integration into existing digital workflows.
- Performed **mesh cleanup and alignment** for reverse engineering workflows, preparing scanned data for CAD recreation and analysis.
- Automated **production reporting** using Python scripts, consolidating data from multiple sources and reducing manual reporting effort by **15 hours per week**.
- Supported and troubleshooted enterprise applications in production environments, responding to P1/P2 incidents and managing change control processes for system updates.
- Developed and maintained **REST APIs** using Java Spring Boot for inter-service communication, enhancing data flow between core business systems.

SKILLS

3D Printing & Scanning – 3D Printers, 3D Scanning, Part Production, Post-Processing, Reverse Engineering, Mesh Cleanup, CAD Recreation

Software Development – Java, Spring Boot, Python, REST APIs, Docker, Git, Jenkins, CI/CD

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Shell Scripting

Enterprise Systems – ERP Systems, CRM, Change Management, UAT Support

Customer Support – Technical Support, Troubleshooting, Customer Demos, Application Advice

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automated Production Reporting Dashboard

- Developed a Python-based ETL pipeline to extract, transform, and load data from disparate enterprise systems into a central data warehouse.
- Designed and implemented interactive dashboards in **Power BI**, visualizing key performance indicators and operational metrics for business stakeholders.

- Automated the generation and distribution of daily and weekly reports, reducing manual effort by **20%** and improving data accessibility.

3D Scanning Data Processing Workflow

- Created a workflow for processing raw 3D scan data using Python and open-source libraries to perform initial mesh cleanup and alignment.
- Integrated **3D scanning hardware** operation and data capture into a repeatable process for generating clean models for reverse engineering.
- Documented best practices and application notes for utilizing 3D scanning technology in product design and prototyping.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
