PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **first and second-line support** for business-critical software including **ERP systems** and financial platforms, resolving an average of **15 tickets daily** and maintaining **99.8% SLA adherence**.
- Automated data extraction and reporting processes using **Python** and **SQL**, reducing manual effort by **40%** and enabling faster generation of operational performance metrics.
- Developed and maintained **Java Spring Boot** REST APIs for internal services, supporting **new feature integrations** and enhancing system connectivity by **30%**.
- Managed software installations and configurations, coordinating with engineering teams and external vendors to ensure seamless integration and minimal disruption during **system upgrades**.
- Designed and implemented **Power BI dashboards** and interactive reports, translating complex data from various sources into actionable insights for business stakeholders and improving decision-making efficiency by an estimated **20%**.
- Documented technical procedures and created user guides for new software rollouts, delivering **end-user training** sessions to over **50 employees** across multiple departments.

SKILLS

Programming Languages – Python, Java, SQL, JavaScript, C#

Web Technologies – Spring Boot, REST APIs, React, ASP.NET, Django

Databases – PostgreSQL, MySQL, Oracle, SQL, NoSQL

Cloud & DevOps – AWS, Docker, CI/CD, Jenkins, Git, CloudWatch

Business Systems – ERP systems, CAD software integrations, Project Management Tools, Financial Platforms, HR Platforms

Data Analytics & BI – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn, Data Warehousing

Operations & Support – System Administration, Incident Response, Change Management, Technical Documentation, GDPR Compliance

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Automated Financial Reporting Dashboard

- Developed a Python-based data pipeline to ingest and transform financial transaction data from multiple sources, including **PostgreSQL** and flat files.

- Created interactive dashboards in **Power BI** to visualize key financial metrics, reconciliation status, and operational alerts, enabling real-time monitoring for stakeholders.
- Implemented automated report generation and distribution via email, reducing manual reporting time by **60%** and ensuring timely delivery of critical business insights.

Engineering Systems Integration Platform

- Built RESTful APIs using **Java Spring Boot** to facilitate data exchange between the core ERP system and a suite of engineering tools, including a **CAD software** integration layer.
- Managed system configurations and coordinated UAT for new feature rollouts, ensuring seamless data flow and minimal disruption to design and project delivery workflows.
- Enhanced system monitoring through custom scripts and **AWS CloudWatch**, improving visibility into cross-system integrations and reducing incident resolution time by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
