PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **least privilege access policies** for cloud applications, reducing unauthorized access attempts by **15%** through granular RBAC configurations.
- Developed and maintained **CI/CD pipelines** using **Azure DevOps** and **Terraform**, enabling automated deployments and reducing release cycles by **30%**.
- Managed and monitored cloud environments on **AWS** and **Azure**, ensuring **99.9%** uptime and optimizing resource utilization to decrease operational costs by **10%**.
- Implemented comprehensive **disaster recovery and data backup solutions**, ensuring business continuity and meeting regulatory compliance for critical financial services data.
- Integrated cloud identity governance frameworks with **Entra ID** and managed access controls for enterprise applications, enhancing security posture and auditability.
- Automated user access reviews and monitored system activity using **Python** scripting and **Microsoft Graph API**, improving compliance reporting efficiency by **25%**.

SKILLS

Cloud Platforms – Azure, AWS, Azure DevOps, Azure AD (Entra ID), Azure Monitor, AWS IAM, Azure Policy

Infrastructure as Code & CI/CD – Terraform, Jenkins, Git, Docker

Identity & Access Management – RBAC, SAML, OAuth, OIDC, Federation, PIM, SSO, Entra Connect Sync, Microsoft Graph API, Microsoft Graph PowerShell SDK

Programming & Scripting – Python, Shell Scripting

Observability & Operations – Splunk, Dynatrace, CloudWatch, Azure Operations Suite

Database & Data Management – PostgreSQL, MySQL, Oracle

Enterprise Systems – ERP Integration Support, Change Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Cloud IAM Security Platform (HCL Technologies)

- Developed a centralized platform for managing cloud IAM policies across multiple AWS accounts using **Python** and **Boto3**, enforcing standardized security configurations.
- Implemented automated alerts for policy deviations and access anomalies using **CloudWatch Events** and **Lambda**, reducing incident response time by **40%**.

- Integrated with existing enterprise systems to automate user provisioning and deprovisioning workflows, ensuring adherence to regulatory compliance and access control best practices.

Secure Cloud Resource Deployment Framework

- Engineered an **Infrastructure as Code** framework using **Terraform** for provisioning secure and compliant cloud resources on **Azure**, supporting **RBAC** and **Azure Policy** enforcement.
- Automated the deployment of IAM roles and permissions as part of the CI/CD pipeline, reducing manual configuration errors by **90%**.
- Developed custom Terraform modules to enforce security best practices for networking, storage, and compute services, ensuring adherence to organizational compliance standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
