

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **machine learning models**, including **transformer neural networks**, to address applied AI research challenges, measuring customer impact.
- Automated data pipeline processes using **Python**, reducing manual effort by **40%** and improving data ingestion efficiency for analytics.
- Designed and implemented **interactive dashboards** and data visualizations using **Power BI** and **DAX** for business stakeholders, enhancing data-driven decision-making.
- Managed production support for enterprise applications, resolving P1/P2 incidents within strict SLAs and maintaining **99.9%** system uptime.
- Integrated enterprise systems and supported ERP modules through REST APIs and direct database integrations, ensuring seamless data flow across platforms.
- Collaborated with cross-functional teams to gather requirements, coordinate UAT, and provide post-implementation support for system configuration updates.

SKILLS

Machine Learning – ML algorithms, Transformer neural networks, Model deployment, Model evaluation, Applied AI research

Data Visualization & BI – Power BI, Tableau, DAX, Data Modelling, Power Query, Business Intelligence

Programming & Scripting – Python, Java, Spring Boot, R, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Data Engineering & Analytics – Data Pipelines, ETL, Data Warehousing, Pandas, NumPy, Scikit-learn, Statistical Analysis

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Transaction Anomaly Detection Platform

- Developed a proof-of-concept platform for detecting anomalies in financial transaction data using **Python** and **scikit-learn**.
- Implemented data preprocessing and feature engineering pipelines with **Pandas** to prepare data for ML model training.
- Created an operational dashboard using **Power BI** to visualize detected anomalies and model performance metrics.

Real-Time Customer Impact Measurement Dashboard

- Built a dashboard to track and measure the real-time customer impact of deployed AI solutions, integrating data from multiple sources.
- Designed and implemented **REST APIs** using **Java Spring Boot** to ingest performance data into a centralized data store.
- Configured automated reporting using **Python scripts** and scheduled jobs on **Linux**, delivering weekly impact summaries.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
