PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **Java Spring Boot** microservices to build core banking product logic, including accounts, deposits, and interest accrual, supporting **10M+** daily transactions.
- Developed **Python** scripts to automate ETL processes for data pipelines, reducing manual data preparation time by **40%** and improving data accuracy for downstream analytics.
- Configured and maintained **PostgreSQL** database schemas and wrote complex SQL queries for data validation and reporting, ensuring data integrity for financial operations.
- Built and maintained **REST APIs** for integration services, connecting core banking systems with downstream channels like payments and notifications, enhancing system interoperability.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict SLAs for financial services clients.
- Collaborated with Product Owners and Subject Matter Experts to translate complex banking requirements into implementable technical designs for core banking product features.

SKILLS

Core Banking & Financial Products – Accounts, Deposits, Lending, Fees, Interest, Limits, Delinquency, Posting Rules, Lifecycle States, Financial Events, Schedules

Development & Integration – Java, Spring Boot, Python, REST APIs, Microservices, NestJS, Node.js, Rust

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Linux, Shell Scripting

Data & Analytics – SQL, PostgreSQL, MySQL, Oracle, Power BI, DAX, Power Query, Data Modelling, Data Warehousing, Tableau, R, pandas, NumPy, scikit-learn

DevOps & Quality – CI/CD, Jenkins, Git, Unit Testing, Integration Testing, Contract Testing, Test Automation, Observability, Splunk, Dynatrace

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Change Management, UAT

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Payments Reconciliation and Transaction Monitoring Dashboard

- Developed a **Java Spring Boot** application to ingest and process financial transaction messages, enabling real-time monitoring of payment flows.
- Implemented robust error handling and alerting mechanisms using **Python** and **SQL**, reducing the time to detect failed transactions by **60%**.

- Designed and deployed interactive dashboards in **Power BI** to visualize key operational metrics, reconciliation status, and audit trails for financial operations teams.

Cloud-Native Core Banking Ledger Engine

- Designed and built a cloud-native ledger engine using **Java** and **Spring Boot** on **AWS**, simulating core banking functionalities like account management and interest accrual.
- Implemented event-driven architecture patterns with **Kafka** for asynchronous processing of financial events, ensuring idempotency and fault tolerance.
- Developed comprehensive unit and integration tests, alongside **PostgreSQL** database scripts for data reconciliation, achieving **99.9%** accuracy in transaction posting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
