

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** microservices for enterprise applications, implementing **REST APIs** and resolving critical production defects to ensure 99.9% service availability.
- Automated data extraction and transformation tasks using **Python** scripts, reducing manual processing time by **40%** and supporting the generation of daily operational reports.
- Managed and monitored production systems on **AWS** (EC2, S3, Lambda) using **Splunk** and **CloudWatch**, responding to P1/P2 incidents and maintaining strict SLAs.
- Contributed to **CI/CD** pipeline development using **Jenkins** and **Git**, automating build, test, and deployment processes, which shortened release cycles by **15%**.
- Supported and integrated with enterprise business systems, including **ERP** modules, managing change control for system updates and coordinating User Acceptance Testing (UAT).
- Designed and deployed interactive **Power BI** dashboards, incorporating **DAX** measures and optimized data models to visualize key performance indicators for business stakeholders, leading to a **20%** improvement in data-driven decision-making.

SKILLS

Programming Languages – Python, Java, C, C++

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – SQL, PostgreSQL, MySQL, Oracle

Frameworks & Libraries – Spring Boot, REST APIs, pandas, NumPy, scikit-learn

Development Tools – Git, Jenkins, Jira, Confluence, Splunk, Dynatrace

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, R, RStudio

Embedded Systems – Microcontrollers, DSP, ARM, Multi-core SoCs

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Payments Operations Monitoring Dashboard

- Developed a **Java Spring Boot** application to monitor transaction flows for a financial-services client, providing real-time visibility into payment message statuses.
- Implemented automated alerting mechanisms using **Python** for failed or delayed transactions, reducing incident response time by **30%**.

- Integrated with backend databases (**PostgreSQL**) to capture audit trails and support reconciliation workflows, adhering to regulatory compliance requirements.

Embedded Systems Test Automation Framework

- Created a test automation framework using **Python** to validate functionality on embedded targets like **ARM** microcontrollers, covering module testing and generating test reports.
- Developed scripts to interface with development tools, including emulators and debuggers, to facilitate systematic testing of software modules.
- Managed test artifacts and code versions using **Git** and a CM database, ensuring adherence to company QA and software quality processes.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
