PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported **Project Managers** in delivering assigned projects by coordinating design activities and monitoring progress against budgets and timelines, ensuring adherence to **contract requirements**.
- Assisted in the management of construction phase activities, upholding high standards of **health, safety, and environmental management**, including incident investigation and compliance with construction-phase plans.
- Coordinated site activities to prevent conflicts and ensured all plant equipment was inspected and fit for purpose, setting persons to work according to **Veolia Minimum Requirements (VMR)** standards.
- Reviewed third-party methodologies and managed subcontractor performance and quality logs, ensuring timely resolution of **subcontractor-related defects** and maintaining project documentation.
- Provided reporting on programme progress, including a weekly **3-week look ahead** for clients, and assisted in optimising workflows to reduce project timelines by an average of **10%**.
- Collaborated with multi-disciplined engineering teams during design and delivery stages, communicating project updates and supporting **equipment selection and procurement processes**.

SKILLS

Engineering & Project Management – Mechanical Engineering, Project Delivery, Contract Management, Client Liaison, Design Coordination, Procurement, Health & Safety Management, Site Coordination, Quality Management, Subcontractor Management, Commercial Awareness, Dispute Resolution, PSCS Duties, MS Project, Veolia Minimum Requirements (VMR)

Software & Tools – Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Jira, Confluence, Git, Jenkins, Splunk, Dynatrace, CloudWatch

Programming Languages – Python, Java, SQL, R

Frameworks & Technologies – Spring Boot, REST APIs, AWS (EC2/S3/Lambda), Docker, Linux

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, Machine Learning Fundamentals

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Wastewater Treatment Plant Optimisation Dashboard

- Developed an operational dashboard using **Power BI** to monitor key performance indicators for wastewater treatment plants, integrating data from multiple sources.

- Created **DAX measures** and data models to provide real-time insights into process efficiency, reducing manual reporting effort by **30%**.
- Collaborated with operations teams to gather requirements and deliver actionable visualisations that supported proactive decision-making in plant management.

Automated Site Compliance Reporting Tool

- Built a Python-based tool to automate the collection and reporting of site compliance data, integrating with **Linux** servers and extracting logs via **SQL** queries to PostgreSQL.
- Implemented automated checks for adherence to safety protocols and documentation standards, flagging non-compliance issues to project managers within **24 hours**.
- Streamlined the generation of weekly compliance reports, significantly reducing manual effort and improving the accuracy of data presented to stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
