PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Assisted in the development and implementation of **QA/QC plans** and procedures for construction materials, ensuring adherence to project specifications.
- Supported site inspection and testing activities, documenting findings and liaising with subcontractors to address quality deviations, reducing non-conformance reports by **15%**.
- Reviewed and interpreted technical drawings and **project specifications** to verify compliance on-site, identifying potential issues before construction commencement.
- Maintained accurate quality documentation, including comprehensive **inspection reports** and test records, ensuring traceability for all project phases.
- Participated in root cause analysis for identified non-conformances, contributing to the development and implementation of **corrective action plans**.
- Promoted a culture of quality and continuous improvement across project teams by facilitating knowledge sharing and adherence to established **quality standards**.

SKILLS

Quality Management – QA/QC Plans, Inspection & Testing, Quality Documentation, Root Cause Analysis, Corrective Action Plans, Internal Audits, Quality Reviews

Project Management Tools – MS Office Suite, Jira, Confluence

Construction & Engineering – Mechanical Engineering, Electrical Engineering, Civil Engineering, Data Centre Construction, Turnkey Solutions

Quality Standards – ISO 9001

Technical Documentation – Technical Drawings, Project Specifications, Inspection Reports, Test Records

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Data Centre Construction Quality Assurance Framework

- Developed a comprehensive **QA/QC framework** for a large-scale data centre construction project, integrating international quality standards.
- Implemented standardized procedures for material inspection and testing, reducing material rejection rates by **10%** through proactive verification.
- Created detailed **quality documentation templates** for site engineers, ensuring consistent reporting across multiple construction zones.

Site Operations Compliance Dashboard

- Designed and built an interactive **Power BI dashboard** to monitor site operations compliance and quality metrics for European construction projects.
- Integrated data from various sources, including inspection reports and test records, to provide real-time visibility into project quality status.
- Authored **DAX measures** to calculate key performance indicators (KPIs) related to non-conformance rates and corrective action closure times.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
