

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** REST APIs for enterprise applications, contributing to a **15%** reduction in average API response times.
- Automated data validation and reporting processes using **Python scripting**, reducing manual effort by approximately **20 hours** per week.
- Managed production incident response for enterprise applications, resolving P1/P2 issues within defined SLAs and improving system uptime by **5%**.
- Designed and implemented **Power BI** dashboards and DAX measures for stakeholders, enabling data-driven decision-making and improving report generation efficiency by **30%**.
- Collaborated with cross-functional teams to support enterprise business systems, coordinating change management activities and UAT across interconnected platforms.
- Supported a financial-services operations dashboard, monitoring transaction flows and implementing operational alerting for failed payment messages, ensuring **99.95%** message processing availability.

SKILLS

Languages – Scala, Java, Python, SQL, R.

Frameworks/Libraries – Spring Boot, Akka HTTP, Akka Streams, pandas, NumPy, scikit-learn.

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Databases – PostgreSQL, MySQL, Oracle.

DevOps/CI/CD – Jenkins, Git, Jira, Confluence.

BI/Analytics – Power BI, Tableau, DAX, Power Query, RStudio.

Concepts – Distributed Systems, API Development, Object-Oriented Design, Algorithmic Thinking, Data Warehousing, ETL.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Distributed Systems API Gateway for Transaction Processing

- Developed a high-throughput **API Gateway** using **Scala** and **Akka Streams** to manage inbound transaction messages for a financial services platform.
- Implemented robust **routing** and **validation** logic to ensure data integrity and compliance with internal operational standards, processing over **10,000 transactions per minute**.

- Integrated with downstream services via **REST APIs**, contributing to a **99.9%** reliability target for payment message processing.

Real-Time Operational Dashboard for Financial Workflows

- Engineered a **Power BI** dashboard to visualize real-time operational metrics for financial transaction processing, integrating data from multiple SQL sources.
- Developed complex **DAX measures** to track key performance indicators, including reconciliation success rates and transaction processing times, reducing reporting latency by **40%**.
- Automated data extraction and transformation using **Power Query**, creating a reliable ETL pipeline that supported daily business intelligence reporting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
