PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **React** UI components and associated **APIs** for a financial platform, enhancing user experience for enterprise applications.
- Authored comprehensive unit, integration, and system-level tests for **React** components, ensuring code quality and reliability within a **continuous delivery pipeline**, reducing critical bugs by **30%**.
- Collaborated with cross-functional teams to design and implement new UI features, contributing to technical design discussions and performing peer code reviews for **TypeScript** and **React** codebases.
- Built and iterated on **prototypes** for new feature development, informing architectural decisions and accelerating the adoption of modern UI frameworks.
- Refactored existing **Java Spring Boot** REST APIs, improving performance and scalability for backend services supporting the financial platform.
- Managed production support for enterprise applications, resolving P1/P2 incidents and ensuring adherence to strict SLAs using tools like **Splunk** and **Dynatrace**, achieving **99.95%** uptime.

SKILLS

Frontend Development – React, TypeScript, HTML5, CSS, JavaScript, UI Frameworks, Modern Libraries, UX Best Practices

Backend Development – Java, Spring Boot, REST APIs, Python, Object-Oriented Design Patterns

Testing & CI/CD – Unit Testing, Integration Testing, System-level Testing, Continuous Delivery, Jenkins, Git

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases & Data Handling – SQL, PostgreSQL, MySQL, Oracle, Data Modelling, Power Query

Data Analytics & BI – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn

Methodologies & Tools – Agile, Scrum, Jira, Confluence

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Financial Transaction Monitoring Dashboard

- Engineered a **Power BI** dashboard to visualize real-time transaction flows and operational alerts for a financial services client, improving visibility into payment processing by **40%**.
- Developed **Python** scripts to automate data extraction and transformation from PostgreSQL and Oracle databases, feeding into the reporting pipeline and reducing manual effort by **25%**.

- Implemented robust data validation and reconciliation workflows within the dashboard, ensuring data integrity and supporting audit trail requirements for regulatory compliance.

Customer-Facing Analytics Platform

- Designed and built interactive data visualizations and reports using **Tableau** and **Power BI** for business stakeholders, enabling data-driven decision-making.
- Applied statistical methods and **Python (pandas, scikit-learn)** to analyze customer behavior data, identifying key trends and contributing to a **15%** improvement in engagement metrics.
- Developed REST APIs using **Flask** to serve aggregated data for consumption by other internal applications, facilitating seamless data integration across enterprise systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
