PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and implemented automated Python scripts to streamline data ingestion processes, reducing manual effort by **40%** and improving data pipeline reliability.
- Developed REST APIs using **Java Spring Boot** for core enterprise applications, supporting new feature development and enhancing system integration capabilities.
- Managed and resolved production incidents for enterprise applications, maintaining service level agreements (SLAs) and ensuring **99.9%** system uptime through proactive monitoring with **Splunk** and **Dynatrace**.
- Constructed interactive dashboards and data visualizations in **Power BI**, translating complex datasets into actionable business insights for stakeholders and informing strategic decisions.
- Supported and integrated with enterprise business systems, including ERP modules, coordinating change management activities and ensuring smooth post-go-live operations across interconnected platforms.
- Executed complex SQL queries and performed data validation across **PostgreSQL** and **Oracle** databases, contributing to data integrity and supporting ad-hoc reporting requirements.

SKILLS

Programming Languages – Python, Java, SQL, R
Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn
Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git
Databases – PostgreSQL, MySQL, Oracle
BI & Data Visualization – Power BI, Tableau, DAX, Power Query
Monitoring & Observability – Splunk, Dynatrace
Methodologies & Tools – Agile, Scrum, Jira, Confluence

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Automated Financial Operations Dashboard

- Developed a Python-based ETL pipeline to ingest and process transaction data from various sources for a financial operations dashboard.
- Implemented real-time monitoring and alerting mechanisms using **SQL** and custom scripts to flag anomalies in transaction flows, improving issue detection by **30%**.

- Designed and deployed interactive visualizations in **Power BI** to present key operational metrics and support reconciliation workflows for a financial services client.

Enterprise Resource Planning System Integration

- Engineered REST APIs with **Java Spring Boot** to facilitate seamless data exchange between an ERP system and other enterprise business applications.
- Managed change control processes for ERP module updates, coordinating user acceptance testing (UAT) and providing post-implementation support to minimize disruption.
- Automated data validation checks using **Python** scripts, reducing data discrepancies in cross-system integrations by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
