

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Contributed to concept and feasibility studies for new rail assets by applying **data-driven methods**, improving project planning accuracy by **15%**.
- Collaborated in multi-disciplinary teams to integrate **systems engineering** and **digital engineering** solutions, enhancing project delivery timelines by **10%**.
- Supported work winning initiatives by developing technical proposals and client relationship materials, contributing to securing **2 new project bids**.
- Applied **Python scripting** and **SQL** for data analysis and operational modelling, enabling more efficient capacity planning for rail networks.
- Managed production environments for a financial-services client, ensuring **99.9% uptime** for a critical payments operations dashboard through proactive monitoring and incident response.
- Developed and maintained **Java Spring Boot** REST APIs for enterprise business systems, supporting cross-system integrations and reducing data latency by **20%**.

SKILLS

Rail Engineering – Rail Operations & Planning, Systems Engineering & Safety Assurance, Telecoms & Digital Systems, Digital Engineering, MEP (Rail Stations & Depots), Project & Design Management, Irish rail standards, UK rail standards.

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, data modelling, R, RStudio, statistical analysis, hypothesis testing, time-series analysis, A/B testing.

Programming & Scripting – Python, Java, Spring Boot, Flask, FastAPI, pandas, NumPy, scikit-learn.

Databases & Warehousing – SQL, PostgreSQL, MySQL, Oracle, data warehousing, ETL.

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git, CI/CD.

Production Support & Monitoring – Splunk, Dynatrace, incident response, SLA management, change-control management.

Enterprise Systems – ERP integration support, business systems support, REST APIs, Jira, Confluence.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Rail Network Capacity Optimization Dashboard

- Developed an interactive dashboard using **Power BI** to visualize real-time rail network capacity metrics, integrating data from multiple sources via **Power Query**.

- Created complex **DAX measures** to calculate key performance indicators such as on-time performance, passenger load factors, and delay propagation, providing actionable insights to operations teams.
- Published reports to a stakeholder audience, enabling data-driven decision-making that contributed to a **7% improvement** in scheduled service adherence.

Automated Transaction Monitoring System

- Engineered a **Python**-based system to automate the monitoring of financial transaction flows for a payments operations dashboard, processing over **1 million transactions daily**.
- Implemented robust error handling and alerting mechanisms using **SQL** queries against a **PostgreSQL** database to identify and flag failed or stalled payment messages, reducing manual intervention by **40%**.
- Collaborated with business analysts to define reconciliation workflows and ensure compliance with operational requirements and audit trail logging.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
