

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained **Java Spring Boot** microservices for enterprise applications, implementing **REST APIs** that supported a **30%** increase in data processing throughput.
- Automated data extraction and reporting processes using **Python** scripts, reducing manual effort by **15 hours** per week and improving data accuracy for financial operations.
- Managed production incidents for critical enterprise systems, responding to P1/P2 alerts and restoring service within **99.9%** SLA targets, utilizing **Splunk** and **Dynatrace** for root cause analysis.
- Designed and implemented interactive **Power BI** dashboards to visualize key performance indicators for business stakeholders, enabling data-driven decision-making and enhancing reporting efficiency by **40%**.
- Executed complex **SQL** queries and managed schema modifications across **PostgreSQL** and **Oracle** databases, ensuring data integrity for analytical reporting and system integrations.
- Contributed to CI/CD pipeline development and maintenance using **Jenkins** and **Git**, facilitating automated testing and deployment cycles for new software releases.

SKILLS

Core Programming – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

BI & Data Visualization – Power BI, Tableau, DAX, Power Query

DevOps & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Financial Transaction Monitoring Dashboard

- Developed a real-time dashboard using **Power BI** to monitor transaction flows for a financial services client, improving visibility into payment processing status.
- Implemented **SQL** queries to aggregate and validate transaction data from multiple sources, ensuring data accuracy for operational alerts and reconciliation workflows.
- Collaborated with business analysts to define reporting requirements and configure alerts for failed or delayed financial messages, enhancing operational efficiency.

Automated Data Pipeline for Operational Analytics

- Engineered an automated data pipeline using **Python** and **Pandas** to extract, transform, and load data from disparate enterprise systems into a centralized data store.
- Integrated the pipeline with **AWS S3** for data staging and utilized **Spring Boot** services for API-driven data ingestion, supporting a **20%** growth in data volume.
- Designed and implemented **SQL** schema changes in **PostgreSQL** to accommodate new data sources and support advanced analytical queries for business intelligence reporting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
