PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained **Java Spring Boot** REST APIs for enterprise applications, enhancing system integration capabilities and supporting new feature rollouts.
- Automated data extraction and reporting processes using **Python scripts**, reducing manual effort by **40%** and improving data delivery timelines for business stakeholders.
- Managed production incidents and SLA adherence for critical enterprise systems, responding to P1/P2 alerts and resolving issues within defined resolution times.
- Designed and implemented interactive **Power BI dashboards** with complex **DAX measures** and optimized data models, providing key performance insights for business unit leaders.
- Collaborated with cross-functional teams to support and integrate with **ERP systems**, managing change control processes and coordinating User Acceptance Testing.
- Refactored relational database queries and implemented strategic indexing across **PostgreSQL** and **MySQL** databases, improving analytical report execution times by **30%**.

SKILLS

Mobile Development – Swift, Objective-C, iOS SDKs, UIKit, SwiftUI

DevOps & CI/CD – CI/CD pipelines, Gitflow, Automated testing, Jenkins

Programming Languages – Swift, Python, Java, SQL

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Data Analytics & BI – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn

Methodologies – Agile, Kanban, Scrum

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Real-Time Payments Processing Dashboard

- Developed a **Java Spring Boot**-based backend service to ingest and process financial transaction messages, ensuring high availability for a financial services client.
- Implemented robust monitoring and alerting mechanisms using **Splunk** and custom logging, achieving **99.95% uptime** for critical transaction reconciliation workflows.
- Integrated with upstream and downstream systems via **REST APIs** to provide end-to-end visibility into payment message status.

Interactive Sales Performance Analytics Dashboard

- Engineered an end-to-end data pipeline using **Python** and **SQL** to consolidate sales data from disparate sources into a centralized data warehouse.
- Built a comprehensive **Power BI** dashboard visualizing key sales KPIs, enabling stakeholders to track performance against targets and identify growth opportunities.
- Applied **DAX** extensively to create complex calculations for rolling averages, year-over-year growth, and regional performance breakdowns.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
