PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Prepared monthly management accounts and financial reports by gathering and consolidating data from various financial systems, ensuring accuracy and adherence to reporting deadlines.
- Supported budgeting and forecasting processes by compiling financial data, performing initial variance analysis, and highlighting key trends to senior finance professionals.
- Reconciled balance sheet accounts, including bank statements and intercompany balances, investigating and resolving discrepancies to maintain financial record integrity.
- Assisted in the preparation of year-end audit requirements, collating supporting documentation and liaising with external auditors to facilitate a smooth audit process.
- Maintained accurate financial records and ensured compliance with internal controls and company policies, contributing to a robust financial reporting framework.
- Collaborated with cross-functional teams to support business decision-making by providing ad hoc financial analysis and insights on key operational metrics.

SKILLS

Finance & Reporting – Management Accounts, Financial Reporting, Budgeting, Forecasting, Variance Analysis, Balance Sheet Reconciliation, Audit Preparation, Financial Records Management, Internal Controls

Analysis & Business Partnering – Financial Analysis, Business Decision-Making Support, Cross-functional Collaboration, Process Improvement Initiatives

Data Handling – Data Gathering, Data Consolidation, Data Validation, Data Analysis, Data Warehousing, ETL

Project & Operations – Agile/Scrum Methodologies, Change Management, Production Support, Incident Response, SLA Management, CI/CD, Git, Jenkins, Jira, Confluence

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Financial Reporting Dashboard for SME Operations

- Developed a **Power BI dashboard** to visualize key financial performance indicators (KPIs) for small and medium-sized enterprises, consolidating data from multiple sources.
- Designed and implemented **DAX measures** for complex calculations including profit margins and return on investment, enabling deeper financial insights for stakeholders.

- Managed data extraction and transformation using **Power Query**, automating the ETL process for monthly report generation and reducing manual effort by **40%**.

Automated Financial Reconciliation Workflow

- Engineered a **Python script** to automate the reconciliation of transaction data between two disparate financial systems, identifying and flagging discrepancies.
- Integrated the reconciliation script with a **PostgreSQL** database to store reconciliation results and audit trails, ensuring data integrity and compliance.
- Reduced the time required for manual reconciliation by **60%** and improved the accuracy of financial reporting through automated checks and balances.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
