PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Analyzed and annotated model responses for AI systems, ensuring judgments were strictly grounded in observable evidence from screenshots of diverse software interfaces.
- Reviewed screenshots of UI elements and interpreted user workflows with precision, distinguishing between observable evidence and assumptions for AI model training.
- Completed structured annotation and data review tasks across dashboards, forms, and various web applications, maintaining rigorous attention to detail to adhere to quality standards.
- Collaborated with product teams to provide high-quality, actionable feedback impacting AI model improvements, communicating insights and findings effectively in writing.
- Managed time effectively and prioritized tasks to meet deadlines in a remote work environment, contributing to continuous improvement through knowledge-sharing.
- Supported and integrated with enterprise business systems, including ERP modules, coordinating change-control management for system configuration updates and post-go-live support.

SKILLS

UI Analysis & Annotation – Screenshot Analysis, UI Element Identification, User Workflow Interpretation, Evidence-Based Assessment, Assumption Distinction

Data Review & Quality – Structured Annotation, Data Review Tasks, Quality Standards Adherence, Attention to Detail, Accuracy and Consistency

Communication & Collaboration – Written Communication, Articulating Observations, Actionable Feedback, Knowledge Sharing, Remote Collaboration

Technical Proficiency – High Computer Literacy, Navigating Digital Tools, Diverse Software Environments, Web Applications, Dashboards, Forms, Admin Panels, CRM Tools

Project Management – Prioritization, Time Management, Deadline Management, Remote Work Environment

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

User Interface Interaction Analysis for AI Training

- Developed a systematic process for reviewing screenshots of complex software interfaces, identifying key UI elements and annotating user interaction patterns.
- Evaluated AI model interpretations of user workflows, meticulously distinguishing between visible evidence and inferred assumptions to refine model accuracy.

- Authored detailed reports on annotation findings and model response evaluations, providing clear, concise explanations to guide AI development teams.

Enterprise Application Support & Data Validation

- Provided production support for enterprise Java applications, monitoring system health and responding to P1/P2 incidents using **Splunk** and **Dynatrace**.
- Automated data validation and reporting tasks using **Python** scripts, improving data pipeline efficiency and reducing manual effort by **20%**.
- Executed complex **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation and schema change support, ensuring data integrity.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
