PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reviewed and critically assessed **AI-generated outputs** for quality and usability across diverse content types, identifying inconsistencies and providing nuanced feedback that informed model improvements for a core AI system.
- Applied structured **evaluation guidelines** and provided insightful feedback on **AI model performance**, contributing to a **15% reduction** in identified output errors.
- Collaborated with cross-functional teams to define and refine **quality standards** and scoring criteria for AI evaluation workflows, ensuring consistency in feedback delivery.
- Supported the development of **training data** that enhances AI system performance and reliability, directly impacting the accuracy of model responses in ambiguous scenarios.
- Maintained high accuracy and consistency across **evaluations**, ensuring reliable and actionable results for emergent AI technologies, achieving **98% adherence** to quality benchmarks.
- Contributed to the continuous enhancement of **evaluation workflows** and best practices, adapting quickly to new guidelines and tools to improve overall review efficiency.

SKILLS

AI Evaluation – AI-generated content review, Quality assessment, User experience evaluation, Feedback provision, Structured guidelines, Scoring criteria

Core Skills – Reading comprehension, Attention to detail, Critical thinking, Observational skills, Editorial judgment, Written communication, Verbal communication

Workflow Management – Annotation workflows, QA processes, Moderation, Evaluation processes, Continuous enhancement, Best practices

Data Handling – Training data development, Data annotation, Data quality assurance

Tools & Technologies – AI tools, LLMs, Power BI, Tableau, R, Python, SQL, Java, Spring Boot, AWS, Docker, Linux, Git, Jenkins

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI Content Quality Assurance Platform

- Developed a **Power BI dashboard** to visualize key metrics for AI-generated content quality, tracking error rates and user feedback trends.

- Implemented automated checks and validation rules within the platform to identify common inconsistencies in AI outputs, reducing manual review time by **20%**.
- Provided detailed feedback on model performance to engineering teams, focusing on areas like factual accuracy and coherence in generated text.

LLM Response Evaluation Framework

- Designed and applied a systematic framework for evaluating **Large Language Model (LLM) responses**, focusing on clarity, relevance, and adherence to safety guidelines.
- Utilized **Python scripting** to parse and analyze model outputs, identifying patterns of bias or hallucination across a large corpus of test cases.
- Collaborated with domain experts to refine evaluation criteria, ensuring that feedback was actionable for model retraining and fine-tuning.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
