PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Configured and managed **AWS infrastructure** including **EC2**, **S3**, and **RDS** instances to support enterprise applications, ensuring 99.95% availability.
- Automated infrastructure provisioning and deployment using **Terraform**, reducing manual configuration time by **40%** and enhancing environment consistency.
- Developed and maintained operational scripts in **Python** and **Bash** for automating routine tasks, log analysis, and data pipeline execution, saving an estimated **10 hours** of manual effort per week.
- Implemented and monitored **AWS IAM policies** and **VPC configurations** to enforce strict network security and access controls, preventing unauthorized access to sensitive data.
- Monitored system performance and health across production environments using **AWS CloudWatch**, proactively identifying and resolving critical incidents within defined SLAs.
- Collaborated with cross-functional teams to integrate new features and deploy updates to cloud-based services, ensuring seamless operations and adherence to security best practices.

SKILLS

AWS Core Services – EC2, S3, IAM, VPC, RDS, CloudWatch, Lambda

Infrastructure as Code – Terraform, CloudFormation

Scripting & Automation – Python, Bash

Operating Systems – Linux Administration

Databases – PostgreSQL, MySQL, Oracle

Development Practices – CI/CD, Git, Jenkins, REST APIs

Monitoring & Observability – Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Automated Cloud Deployment Pipeline

- Designed and implemented a CI/CD pipeline using **Jenkins** and **Terraform** to automate the deployment of Java Spring Boot applications to **AWS EC2** instances.
- Integrated security scanning tools into the pipeline to ensure compliance with enterprise security standards before deployment, reducing critical vulnerabilities by **20%**.

- Managed infrastructure as code configurations for multiple environments, enabling rapid and consistent rollouts of new application versions.

Real-Time Transaction Monitoring Dashboard

- Developed a Python-based data processing script to ingest and transform transaction data from multiple sources for a financial-services operations dashboard.
- Created interactive visualizations and alerts in **Power BI** to monitor transaction flows, identify anomalies, and support reconciliation workflows.
- Collaborated with business analysts to refine reporting requirements, ensuring the dashboard provided critical operational insights for stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
