PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Automated infrastructure provisioning and configuration management for a **multi-region cloud deployment** using **Terraform**, reducing manual setup time by **40%**.
- Designed and implemented **CI/CD pipelines** with **Jenkins** and **Git**, enabling automated testing and deployment for **Java Spring Boot applications**, accelerating release cycles by **30%**.
- Managed and monitored production systems on **AWS** using **CloudWatch** and **Splunk**, ensuring **99.9% uptime** and resolving P1/P2 incidents within SLA targets.
- Developed Python scripts to automate ETL processes for data ingestion into a **payments operations dashboard**, improving data refresh efficiency by **50%**.
- Containerized **REST APIs** using **Docker** and deployed them to **AWS EC2 instances**, standardizing application deployment and improving resource utilization.
- Supported enterprise business systems by coordinating change-control management for system configuration updates and UAT, ensuring seamless integration across interconnected platforms.

SKILLS

Cloud Platforms – AWS, Azure, GCP, Digital Ocean

Containerization & Orchestration – Docker, Kubernetes

CI/CD & Automation – Jenkins, Terraform, Ansible, Git

Monitoring & Logging – Prometheus, Grafana, Splunk, CloudWatch

Languages & Scripting – Python, Java, Bash, SQL

Frameworks & Technologies – Spring Boot, REST APIs, Linux

Security & IAM – IAM principles, Secrets Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Scalable Kubernetes Deployment Pipeline

- Engineered a **GitOps-driven CI/CD pipeline** for microservices deployed on **Kubernetes clusters** across multiple cloud environments (AWS, Azure).
- Automated infrastructure provisioning using **Terraform** and managed application deployments with **Argo CD**, achieving consistent environments and reducing deployment errors by **20%**.

- Integrated **Prometheus and Grafana** for real-time monitoring and alerting on cluster health and application performance.

Financial Transaction Monitoring Dashboard

- Developed a **Python-based backend service** to process and aggregate financial transaction data for an operational dashboard.
- Implemented data validation and reconciliation workflows using **SQL** against a **PostgreSQL** database, ensuring data accuracy for financial reporting.
- Created interactive dashboards in **Power BI** to visualize transaction flows, identify bottlenecks, and support operational decision-making for enterprise customers.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
