PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Reviewed and refined thousands of **video annotations** for AI model training, ensuring precision in hand movements and object interactions, achieving a **98% accuracy rate** against project rubrics.
- Validated and corrected action timing on **time-coded video segments**, precisely aligning annotation boundaries with the start and end of labeled activities, contributing to a **15% reduction in rework requests**.
- Assessed and edited captions for atomicity, confirming each label described a single, independent action, and verified correct identification of **left versus right hand usage** across extensive video datasets.
- Maintained consistent labeling quality by adhering to established **annotation rubrics** and structured review pipelines, consistently meeting daily throughput targets for **repetitive video content analysis**.
- Provided actionable feedback to enhance annotation models, collaborating with team leads to resolve edge cases and flag low-quality, ambiguous, or incomplete labels for rework.
- Managed production support for enterprise Java applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring SLA adherence in critical operational environments.

SKILLS

Video Analysis – Annotation refinement, Action timing validation, Caption atomicity, Hand usage identification, Visual discrimination, Attention to detail.

AI Training Data – Video annotation, Labeling, Content moderation, Annotation rubrics, Structured review pipelines.

Tools & Platforms – Web-based annotation tools, Time-coded video platforms, CVAT, Labelbox, Scale, V7, Encord.

Software Engineering – Java, Spring Boot, Python, SQL, REST APIs, AWS, Docker, Linux, Git, Jenkins.

Data Analysis & BI – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn, Data modelling, Data warehousing.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

AI Video Annotation Quality Assurance Platform

- Developed a Python script to automate the initial validation of **video annotations** against basic project standards, reducing manual review time by **20%** for repetitive tasks.
- Implemented a feedback mechanism within a **web-based annotation tool** to streamline reporting of ambiguous labels and edge cases to the model training team.

- Analyzed annotation quality metrics using **pandas** and generated summary reports to identify trends and areas for improved reviewer training.

Financial Transaction Monitoring Dashboard

- Built and maintained a **payments operations dashboard** using **Python** and **SQL** (PostgreSQL), providing real-time visibility into transaction flows and operational alerting.
- Developed automated data pipelines for ingesting and processing transaction messages, supporting reconciliation workflows and ensuring data integrity for **financial-services clients**.
- Configured alerts and monitoring within **Splunk** for critical payment processing issues, contributing to a **99.95%** uptime for the core transaction system.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
