

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot** REST APIs for enterprise applications, supporting core business functions and reducing latency by **15%**.
- Automated data ingestion and reporting processes using **Python** scripts, improving data pipeline efficiency by **30%** and reducing manual effort.
- Managed production incidents and SLA adherence for critical enterprise applications, resolving P1/P2 issues within defined response times and contributing to **99.95%** uptime.
- Designed and implemented interactive dashboards and data visualizations in **Power BI** for business stakeholders, enabling data-driven decision-making and improving report accessibility.
- Enhanced data validation and integrity by executing complex **SQL** queries and managing schema modifications across **PostgreSQL** and **MySQL** databases.
- Contributed to CI/CD pipelines using **Jenkins** and **Git**, ensuring consistent code quality through peer reviews and automated build processes.

SKILLS

Languages – Java, Python, SQL, Ruby, JavaScript, R

Frameworks/Libraries – Spring Boot, React, Redux, pandas, NumPy, scikit-learn, RSpec

Databases – MySQL, PostgreSQL, Oracle, Redis

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, GitHub, GitHub Actions, Jenkins

Tools & Platforms – Power BI, Tableau, Splunk, Dynatrace, JIRA, Confluence, Slack, Zoom, Kafka

Methodologies – Agile, Scrum, Test-Driven Development (TDD), CI/CD, Design Principles

Domain Knowledge – Real-time Systems, Event-Driven Architectures, Data Warehousing, Business Intelligence

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Transaction Monitoring Dashboard

- Developed a dashboard using **Power BI** to visualize real-time transaction flows for financial services operations, enabling proactive identification of payment processing issues.
- Connected to multiple data sources via **SQL** and **Power Query**, performing data transformations and building a robust data model to support interactive reporting.

- Implemented custom **DAX** measures to calculate key performance indicators, providing stakeholders with actionable insights into transaction success rates and processing times, achieving a **20%** faster issue detection.

Automated Production Alerting System

- Built an automated system using **Python** and **AWS Lambda** to monitor application logs and trigger alerts for critical errors, reducing manual monitoring overhead by **40%**.
- Integrated with **Splunk** for log analysis and **CloudWatch** for metric monitoring, establishing thresholds for anomaly detection.
- Designed a notification service using **REST APIs** to send alerts to relevant teams via **Slack**, ensuring rapid response to production incidents and improving system reliability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
