PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and implemented automated test scripts for web UI and API endpoints using **Python** and **Selenium**, achieving **90%** test coverage for critical application features.
- Developed and maintained automation test frameworks, integrating **pytest** for efficient test execution and reporting, reducing manual testing effort by **40%**.
- Collaborated with cross-functional teams to define test requirements and assess feasibility, ensuring comprehensive test coverage for new product features.
- Executed automated test cases, meticulously recording and tracking defects in **Jira**, and verifying timely resolution with development teams.
- Analyzed test results, generated detailed test reports, and provided quality assurance support for multiple product releases, ensuring adherence to release criteria.
- Contributed to performance testing initiatives by writing scripts with **JMeter**, identifying and reporting bottlenecks that impacted system stability under load.

SKILLS

Testing Tools – Selenium, Appium, Postman, JMeter, Cypress, Playwright, Jira

Programming Languages – Python, Java, SQL

Web Technologies – RESTful APIs, HTTP protocols

Frameworks – pytest, TestNG

Version Control – Git, SVN

CI/CD – Jenkins pipelines

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automated Payments Processing Validation Suite

- Developed automated test scripts in **Python** to validate end-to-end payments processing workflows, covering message parsing and reconciliation steps.
- Integrated **Postman** for API testing of transaction submission and status inquiry endpoints, ensuring seamless data flow between systems.
- Managed test execution and defect tracking using **Jira**, contributing to a **35%** reduction in post-release critical issues for the financial services dashboard.

Enterprise Application Regression Testing Framework

- Built a reusable automation framework using **Java** and **Selenium** for regression testing of core enterprise systems.
- Implemented robust handling of dynamic web elements and asynchronous operations to ensure test script stability across frequent UI updates.
- Configured **Jenkins** pipelines to automate test execution as part of the CI/CD process, improving deployment confidence.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
