

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Angular** components and services for a new AI-powered customer interaction module, ensuring seamless integration with backend APIs.
- Developed **TypeScript** and **JavaScript** features for the Conversational AI platform, focusing on user interface responsiveness and maintainability.
- Constructed **REST Web services** using **Java Spring Boot** to expose AI model inference endpoints, handling approximately 4,000 requests per hour during peak loads.
- Authored comprehensive unit and integration tests for frontend modules, achieving over **85% code coverage** for critical user flows.
- Participated actively in **Agile Scrum ceremonies**, including sprint planning, daily stand-ups, and retrospectives, contributing to team velocity and feature delivery.
- Refactored legacy **JavaScript** codebases to improve performance and readability, reducing page load times by an average of **18%**.
- Containerized frontend applications using **Docker** for consistent deployment across development, staging, and production environments on **AWS**.

SKILLS

Frontend – Angular, JavaScript, TypeScript, HTML, CSS, RxJS

Backend – Java, Spring Boot, REST APIs, Microservices

Cloud & DevOps – AWS, Docker, Jenkins, Git, CI/CD

Data & AI – AI-assisted development tools, Generative AI concepts, Machine Learning fundamentals

Tools & Methodologies – Jira, Agile, Scrum, Unit Testing, Integration Testing

PROJECTS

AI-Powered Chatbot Integration Layer

- Developed a **TypeScript**-based integration layer to connect a Generative AI model with an existing enterprise chat platform, handling over 5,000 user interactions daily.
- Designed and built reusable **Angular** UI components for displaying AI-generated responses and managing conversation state, improving user engagement metrics by **22%**.
- Implemented robust error handling and logging mechanisms for the AI interaction flow, ensuring reliable service delivery and simplifying debugging.

Enterprise Data Visualization Service

- Constructed a **Java Spring Boot** backend service to aggregate and serve data for operational dashboards, processing data from multiple internal systems.
- Developed RESTful APIs to provide data access for frontend visualization tools, supporting approximately 15 concurrent API consumers.
- Applied **SQL** queries against PostgreSQL databases for efficient data retrieval and transformation required by the reporting layer.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
