PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided technical troubleshooting and vehicle maintenance coordination support across enterprise fleet operations systems, liaising between drivers and service providers to resolve mechanical issues and minimize downtime by **15%** through rapid diagnostic advice and garage communication.
- Managed daily system logs and maintenance records within **Excel** and operational dashboards, ensuring accurate vehicle service tracking, compliance documentation, and real-time visibility into fleet health across **150+** vehicle records.
- Communicated technical requests and repair specifications to external service providers and internal mechanics using clear, professional communication across multiple channels—telephone, email, written work orders—ensuring zero miscommunication on critical repairs.
- Coordinated service bookings and breakdown queries within fleet management systems, negotiating repair schedules with garages to balance technical necessity against cost and downtime, achieving **20%** improvement in first-contact resolution rates.
- Maintained accurate daily logs and administrative records of all vehicle maintenance tasks, service history, and parts inventory within enterprise systems using **Microsoft Office** (Excel, Word) for reporting and stakeholder communication.
- Supported cross-functional operations teams in meeting service targets and customer satisfaction KPIs through pragmatic decision-making, vendor liaison, and proactive communication with drivers, garages, and corporate stakeholders.

SKILLS

Vehicle & Mechanical Knowledge – vehicle diagnostics, modern vehicle systems, mechanical troubleshooting, vehicle maintenance coordination, fleet operations, service scheduling.

Technical Support & Liaison – technical advice, driver support, garage communication, repair coordination, breakdown management, vendor liaison.

System & Administrative – maintenance logging, fleet management systems, daily operational records, system data entry, administrative task management.

Business Software – Microsoft Excel, Microsoft Word, fleet management platforms, operational dashboards.

Communication & Collaboration – professional telephone manner, cross-functional teamwork, stakeholder management, written technical communication, customer service excellence.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Fleet Maintenance Operations Support (HCL Technologies)

- Designed and maintained **daily operational logging systems** within Excel-based fleet management platforms, tracking vehicle maintenance tasks, service history, and parts inventory across enterprise business systems with **zero** data entry errors over 18-month period.
- Coordinated technical communication between drivers, service advisors, and external repair centres, translating mechanical issues into clear work orders and service specifications—reducing garage turnaround time by **18%** through pragmatic problem-solving and vendor negotiation.
- Provided real-time vehicle troubleshooting guidance and maintenance advice to fleet drivers and operations teams, leveraging mechanical knowledge to diagnose common issues and recommend preventive care, achieving **92%** customer satisfaction in support interactions.

Banking Operations & ERP Systems Support (HCL Technologies)

- Supported enterprise ERP systems and interconnected operational platforms used by banking and financial-services clients, managing change-control updates, UAT coordination, and post-go-live support across multiple integrated systems.
- Liaise with business teams and service providers to ensure accurate system configuration, data integrity, and compliance with regulatory requirements—translating technical specifications into operational procedures for non-technical users through clear documentation and training materials.
- Maintained detailed logs and audit trails of all system changes, maintenance tasks, and operational incidents within corporate systems, ensuring full traceability and compliance with financial-services regulations and corporate governance standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
