## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Managed **corporate action elections** and **reconciliation workflows** for banking clients on SWIFT messaging dashboard, proactively executing entitlement calculations and post-payment reconciliations across stock and cash accounts under strict SLA requirements, reducing reconciliation errors by **18%** through systematic validation processes.
- Reconciled and booked **CA entitlements** for multiple business units (Inventory Management, Stock Loan, Prime Brokerage) using **SQL** queries and **Python** automation scripts, managing timely recovery of funds claimed by counterparties and monitoring outstanding balances with **100% month-end accuracy**.
- Resolved operational queries and issues from key stakeholders (trading desks, Prime Brokerage teams, external counterparties) by investigating root causes using **Splunk** and **CloudWatch** monitoring dashboards, delivering responses within tight **SLA timelines** and maintaining stakeholder satisfaction scores of **94%+**.
- Collaborated cross-functionally with operational teams, business analysts, and compliance to manage **multiple deliverables** under tight deadlines, implementing change-control procedures for system configuration updates and coordinating **UAT** across interconnected ERP and banking systems to ensure risk thresholds were maintained.
- Supported **EMEA corporate action** event lifecycle management across voluntary and mandatory events, applying knowledge of **SEPA**, **ISO 20022** message flows, cross-border payments, and regulatory compliance (GDPR, PSD2) to ensure accurate processing and audit-trail documentation for global stakeholders.
- Delivered client services and business support to Inventory Management Desk, Swaps, Stock Loan, and Prime Brokerage teams, building strong stakeholder relationships through proactive communication, timely issue resolution, and flexible approach to departmental needs; developed operational reporting dashboards using **Power BI** to provide real-time visibility into corporate action status and reconciliation metrics.

## SKILLS

**Corporate Actions & Asset Services** – corporate action elections, voluntary and mandatory events, entitlements management, reconciliation workflows, stock and cash account reconciliation, CA processing, post-payment reconciliation.

**Banking & Financial Services Domain** – SWIFT messaging (MT/MX), SEPA, ISO 20022 message flows, payments processing, cross-border payments, PSD2 / Open Banking, stock loan operations, prime brokerage, regulatory compliance (GDPR), audit trails, SLA management.

**Data & Analytics** – Power BI, Tableau, SQL (PostgreSQL, MySQL, Oracle), data reconciliation, operational reporting, data modelling, DAX measures, Power Query.

**Software Engineering & Automation** – Python scripting, Java Spring Boot, REST APIs, ETL data pipelines, scheduled reporting, automation framework development, Linux shell scripting.

**Operational Support & Monitoring** – Splunk, CloudWatch, Dynatrace, incident management, P1/P2 escalation, change-control management, UAT coordination, stakeholder management.

**Enterprise Systems & Integration** – ERP integration support, system interconnectivity, business system configuration, change management, cross-functional collaboration.

**Infrastructure & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins CI/CD, Git, Jira, Confluence.

## EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India

01/2021

## PROJECTS

### EMEA Corporate Action Elections & Reconciliation Platform (HCL Technologies)

- Architected and deployed an integrated **corporate action elections management system** supporting voluntary and mandatory events across EMEA markets, combining **Python** ETL pipelines with **SQL** entitlements calculation logic to automate **CA reconciliation workflows** for Inventory Management, Swaps, Stock Loan, and Prime Brokerage desks.
- Built **Power BI** operational dashboards with **DAX** measures to provide real-time visibility into election status, reconciliation metrics, outstanding fund recoveries, and stakeholder SLA compliance, enabling senior management to monitor **risk thresholds** across **400+ monthly corporate actions** with **99.2% accuracy**.
- Engineered **automated reconciliation engine** using **Python pandas** and **SQL** to validate stock and cash account positions post-payment, reducing manual reconciliation effort by **65%** and eliminating month-end processing delays; integrated with **Splunk** monitoring for real-time alerting on reconciliation exceptions.
- Implemented **ISO 20022 message flow** validation and **SEPA** compliance checks within election processing, ensuring all corporate action entitlements met regulatory audit and cross-border payment standards; coordinated **UAT** across interconnected **ERP** systems and external counterparty platforms.
- Delivered **client service portal** integrated with **REST APIs** and **AWS** infrastructure (Lambda, S3) enabling Prime Brokerage and trading desk stakeholders to submit, track, and query elections in real-time; reduced query resolution time from **8 hours to 1.5 hours** through automated status reporting and escalation rules.

### Banking Operations Fund Recovery & Counterparty Settlement Tracking System (HCL Technologies)

- Developed **fund recovery management system** for tracking and reconciling amounts claimed by Bank of America Merrill Lynch from external counterparties related to corporate action settlements, using **Java Spring Boot** REST APIs and **PostgreSQL** to maintain audit-compliant ledger of all transactions.
- Created **Power BI** dashboard providing **settlement status visibility** and outstanding balance monitoring across counterparty relationships, enabling timely follow-up and **100% recovery rate** on flagged claims within agreed timelines.
- Integrated system with **SWIFT messaging** infrastructure to reconcile settlement instructions with actual fund movements, identifying **discrepancies within 24 hours** and coordinating with operations teams for rapid resolution while maintaining **regulatory audit trail** and GDPR compliance standards.

## ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
