PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **Python data pipelines** and **ETL workflows** processing 500K+ daily payment records using **pandas**, **NumPy**, and **scikit-learn**, achieving **99.2% data accuracy** and reducing manual reconciliation effort by **40%**.
- Built end-to-end **AI-powered automation systems** integrating **Claude API** with **Python** orchestration, **GitHub Actions** CI/CD, and **Vercel** deployment; engineered structured-JSON prompt engineering with constraint guardrails to generate tailored outputs at scale.
- Developed **REST API integrations** and **microservices** in **Java Spring Boot** for cross-system payment data flows across **PostgreSQL**, **MySQL**, and **Oracle**; implemented **gRPC**-style service communication reducing latency by **35%**.
- Architected and maintained **Kubernetes**-deployed containerized applications using **Docker**; optimized deployment pipelines through **Jenkins** CI/CD, reducing build time by **28%** and enabling rapid iteration across microservices.
- Led reliability and incident management for mission-critical **payments-operations systems** using **Splunk**, **Dynatrace**, and **CloudWatch**; maintained **99.8% SLA uptime** through proactive monitoring, P1/P2 incident response, and **Linux** log analysis.
- Delivered **Power BI** dashboards and **Tableau** analytical reports for stakeholder visibility into payment flows, regulatory compliance metrics, and operational KPIs; created **DAX measures** and **Power Query** ETL logic reducing report generation time by **50%**.

SKILLS

Programming & Backend – Python, Java, Spring Boot, FastAPI, Flask, REST APIs, gRPC, microservices.

Data & Analytics – pandas, NumPy, scikit-learn, SQL, data pipelines, ETL, Power BI, Tableau, DAX, Power Query, data modelling, data warehousing.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Linux, shell scripting, CI/CD, Jenkins, GitHub Actions.

Databases – PostgreSQL, MySQL, Oracle, schema design, ad-hoc query optimization, data validation.

Machine Learning & AI – scikit-learn, supervised learning, unsupervised learning, regression, statistical analysis, hypothesis testing, Claude API, prompt engineering, LLM orchestration.

Payments & Financial Domain – SWIFT messaging (MT/MX), ISO 20022 message flows, SEPA, cross-border payments, payments processing, tokenization, Open Banking, PSD2, regulatory compliance, GDPR, audit trails.

Other Tools & Methods – R, RStudio, Jira, Confluence, Agile/Scrum, Git, code reviews, change management, UAT coordination, incident response, SLA management.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Ireland Jobs Tracker – AI-Powered Resume Orchestration Engine (Personal Project)

- Engineered end-to-end **AI workflow automation** integrating **Claude API** (Anthropic) with **Python** orchestration, **Apify** web scraping, and **reportlab** PDF generation; processed 100+ job descriptions per batch with structured-JSON prompt engineering and constraint guardrails.
- Implemented **LLM prompt engineering** techniques using **claude-haiku-4-5** to generate tailored, JD-specific resume content at scale; achieved **92% content relevance** through iterative constraint refinement and few-shot prompting.
- Deployed CI/CD pipeline using **GitHub Actions** and **Vercel** for automated artifact generation and distribution; reduced manual resume customization time by **95%** and enabled batch processing of 50+ resumes in **< 2 minutes**.

Payments Operations Dashboard & SWIFT Messaging Platform (HCL Technologies)

- Delivered **production support and real-time monitoring** for mission-critical **SWIFT messaging** and payments-operations systems serving enterprise banking clients; implemented **Splunk**, **Dynatrace**, and **CloudWatch** dashboards for transaction-flow visibility, operational alerting, and **99.8% SLA uptime**.
- Engineered **Python data pipelines** for **ISO 20022 message parsing**, **SEPA instant payment** processing, and cross-border payment reconciliation workflows; validated **500K+ daily transactions** with **99.2% accuracy**, reducing reconciliation effort by **40%**.
- Developed **REST API integrations** and **SQL data flows** across **PostgreSQL**, **MySQL**, and **Oracle** for ERP interconnections; collaborated with banking-domain BAs and operations teams on UAT coordination, regulatory compliance (GDPR, audit trails), and post-go-live triage.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
