PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **second-line technical support** for **enterprise end users** across onsite and remote environments at HCL Technologies, resolving **escalated incidents** within SLA targets and reducing average resolution time by **18%** through proactive troubleshooting and root-cause analysis.
- Managed **Microsoft 365 environments** including **Outlook, SharePoint, Teams, and OneDrive** configuration, user access provisioning, and issue resolution; supported **Windows desktop and server** troubleshooting across banking and ERP production systems serving **500+ enterprise users**.
- Executed **cloud environment support** for **AWS and Microsoft 365 Admin Center**, including instance health monitoring, access management, patch coordination, and infrastructure alerting using **CloudWatch** and enterprise monitoring tools; escalated complex infrastructure issues to Level 3 and vendors per change-management protocols.
- Performed **regular maintenance, patches, and updates** across Windows and cloud infrastructure using **Jenkins CI/CD pipelines** and automated deployment workflows; coordinated **system migrations and upgrades** for **ERP integrations** and banking-domain applications with zero-downtime rollout strategies.
- Created and maintained **internal documentation and knowledge base articles** in **Confluence** covering troubleshooting procedures, system configurations, and user onboarding guides; supported **user onboarding and offboarding processes** including account provisioning, device assignment, and access control across interconnected enterprise systems.
- Managed service desk ticketing systems with **Jira**, triaging incoming support requests, documenting issues with clear reproducible steps, escalating complex technical problems to senior teams, and tracking SLA compliance across **P1/P2 priority incidents** in production environments.

SKILLS

Second-Line Support & IT Service Management – escalated incident resolution, SLA management, ticket triage, service desk systems, change-control management, proactive system monitoring.

Microsoft 365 & Cloud Platforms – Outlook, SharePoint, Teams, OneDrive, Microsoft 365 Admin Center, Azure awareness, AWS (EC2, S3, Lambda, CloudWatch).

Desktop & Server Support – Windows desktop environments, Windows server administration, user account management, device provisioning, VPN and remote access troubleshooting.

Infrastructure & Network Monitoring – CloudWatch, Splunk, Dynatrace, system alerting, firewall and router configuration basics, networking fundamentals, patch management.

Documentation & Knowledge Management – Confluence, internal knowledge bases, user guides, training materials, troubleshooting procedures, onboarding documentation.

Enterprise Systems & Integration – ERP support, REST API integrations, cross-system data flows, PostgreSQL, MySQL, Oracle database administration, Git, Jenkins CI/CD.

Domain Expertise – banking and financial services production environments, payments processing workflows, regulatory compliance (GDPR, Data Protection), SWIFT messaging, ISO 20022, change management protocols.

EDUCATION AND TRAINING

PROJECTS

Banking Payments Operations & Support Dashboard (HCL Technologies)

- Delivered **second-line technical support** for a **SWIFT messaging** and **payments-operations dashboard** supporting a major European banking client in production, managing **escalated incidents** related to transaction-flow visibility, payment message routing, and operational alerting.
- Monitored **cloud infrastructure** using **CloudWatch, Splunk, and Dynatrace** to proactively identify and resolve system alerts; coordinated **patches, updates, and maintenance windows** with zero-downtime deployment to ensure **SLA compliance** in a **GDPR-regulated** financial-services environment.
- Supported **user onboarding and offboarding** for banking operations teams, managing **Microsoft 365** access (Teams, Outlook, SharePoint for payment workflows), **Windows desktop** provisioning, and audit-trail documentation; created **internal knowledge base articles** in **Confluence** for troubleshooting **ISO 20022 message flows** and **SEPA payment reconciliation** procedures.

Enterprise ERP & Business Systems Infrastructure Support (HCL Technologies)

- Provided **second-line technical support** for interconnected **ERP and enterprise business systems** supporting **500+ end users** across banking and operations teams; resolved escalated issues related to system integrations, **REST API** data flows, and cross-database connectivity across **PostgreSQL, MySQL, and Oracle**.
- Executed **system migrations, upgrades, and change management** procedures for **ERP configuration updates** and business-system rollouts; coordinated **UAT support** and post-go-live troubleshooting to ensure minimal disruption and rapid resolution of production incidents.
- Managed **service desk ticketing** via **Jira**, documented technical issues with reproducible steps, escalated complex problems to Level 3 teams and vendors, and maintained **SLA compliance** across **P1/P2 incidents** in enterprise production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
