PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided 1st and 2nd line IT support to 150+ enterprise users across on-premises and remote environments at HCL Technologies, resolving **95%** of tickets within SLA using **Jira Service Desk** for ticket management and escalation tracking.
- Managed user account provisioning, email configurations, and IT access controls using **Active Directory** and **Microsoft 365**, ensuring secure identity management and compliance with IT security policies across banking and financial services clients.
- Troubleshoot and maintained **Windows Operating Systems, Microsoft Office**, and business applications for enterprise users; configured desktop and laptop hardware, and resolved **network connectivity** and system outages affecting production teams.
- Supported office IT infrastructure including **printer configuration and maintenance, DNS and DHCP** network services, and IT hardware asset register management; coordinated with IT service providers for escalations and vendor liaison.
- Performed daily backup checks and system monitoring using **CloudWatch** and operational dashboards; identified and escalated security vulnerabilities and potential risks in compliance with IT security policies and best practices.
- Authored and maintained IT documentation including troubleshooting guides, system configuration procedures, and user training materials; provided hands-on technical training to non-technical staff in fast-paced, multi-location office environments.

SKILLS

IT Support & Helpdesk – 1st and 2nd line technical support, Jira Service Desk, ticket management, escalation procedures, SLA management.

System & Network Administration – Active Directory, Microsoft 365, user account management, DNS, DHCP, network connectivity troubleshooting, firewall concepts.

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Enterprise Banking IT Support & Infrastructure Management (HCL Technologies)

- Delivered comprehensive 1st and 2nd line IT support to banking operations teams across Dublin and Cork offices, managing **200+ support tickets monthly** through **Jira Service Desk** with **98% first-contact resolution rate**.
- Administered **Active Directory** user accounts and **Microsoft 365** email configurations for 150+ banking staff, implementing secure access controls aligned with financial services compliance and GDPR data protection requirements.
- Managed office IT hardware infrastructure including **Windows desktop and laptop** provisioning, **printer configuration and maintenance**, and **IT asset register** tracking across multi-location banking operations.
- Monitored daily system backups and network health using **CloudWatch** dashboards; identified and escalated **DNS, DHCP, and network connectivity** issues affecting production payment-processing environments with **99.5% uptime**.

ERP & Enterprise Business Systems User Support (HCL Technologies)

- Provided technical support to end-users of enterprise ERP and business systems integrated across banking and financial services clients, troubleshooting application connectivity, data access, and system configuration issues.
- Coordinated with IT service providers and internal teams on system maintenance, patch management, and change-control procedures; maintained comprehensive **technical documentation** and **user training materials** for business system onboarding.
- Supported cross-system integrations and **network connectivity** for interconnected enterprise platforms; troubleshooted and resolved authentication, access control, and system outage incidents affecting business operations.
