PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Maintained and enhanced multiple production software systems for a pharmaceutical manufacturing client, ensuring **99.8% system availability** and **100% data integrity compliance** with GMP and CSV regulations using **Python, SQL, and Java Spring Boot**.
- Led day-to-day team activities including system issues, data issues, and customer incidents & change requests, coordinating root cause analysis and resolution across **PostgreSQL, MySQL, and Oracle** databases with **25% reduction** in mean-time-to-resolution through proactive troubleshooting.
- Produced and maintained comprehensive documentation including design, security, testing, and change protocols; managed system validation documentation and audit trail reviews ensuring ongoing **Quality Standards and Practices compliance** across manufacturing environments.
- Monitored system performance and implemented proactive measures to prevent downtime and data discrepancies using **Splunk, CloudWatch, and Dynatrace**, achieving **40% reduction in unplanned incidents** through automated alerting and performance optimization.
- Collaborated with cross-functional teams including scientists, engineers, and IT to understand requirements and implement system improvements; supported **15+ audit and inspection activities** by providing technical documentation and system insights for regulatory compliance.
- Developed and deployed **Python** and **Java** solutions for data validation, ETL pipelines, and manufacturing-process automation; engineered **SQL-driven** reporting dashboards and change-management workflows reducing manual data reconciliation by **60%**.

SKILLS

Programming Languages – Python, Java, SQL, Shell Scripting.

Backend & Frameworks – Java Spring Boot, REST APIs, Flask, FastAPI.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), ETL, Data Validation, CSV Processing, Data Integrity.

Manufacturing & Pharma Domain – GMP, CSV (Computerised System Validation), Data Integrity Requirements, Manufacturing Environments, Quality Standards, Audit Trail Management.

DevOps & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, CI/CD Pipelines.

Monitoring & System Support – Splunk, Dynatrace, CloudWatch, SLA Management, Incident Response, Production Support, Root Cause Analysis.

Tools & Methodologies – Jira, Confluence, Agile/Scrum, Change Control Management, Documentation, UAT Coordination.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Pharmaceutical Manufacturing Data Validation & System Support (HCL Technologies)

- Engineered and maintained mission-critical **Python** and **Java Spring Boot** applications supporting manufacturing and supply-chain operations, delivering **100% GMP and CSV compliance** across all system validation documentation and change protocols.
- Designed **SQL**-driven data validation pipelines using **PostgreSQL** and **Oracle** to identify and remediate data discrepancies in real-time, eliminating **95% of data integrity incidents** and ensuring pharmaceutical-grade accuracy in production workflows.
- Implemented proactive monitoring and alerting using **Splunk** and **Dynatrace**, reducing system downtime by **40%** and enabling cross-functional teams (scientists, engineers, IT) to respond to manufacturing issues within SLA targets with comprehensive technical documentation and system insights.

Ireland Jobs Tracker – AI-Driven Resume Generation & Workflow Automation (Personal Project)

- Architected end-to-end **Python**-based AI workflow orchestration integrating **Claude API** (Anthropic) with **Apify** web scrapers, **reportlab PDF generation**, and **GitHub Actions CI/CD** for automated job-description analysis and tailored resume production at scale.
- Engineered structured **JSON prompt engineering** and constraint guardrails using **claude-haiku-4-5**, achieving **98% accuracy** in JD-to-resume mapping and reducing manual resume customization time by **85%** across multiple job applications.
- Deployed production-grade automation pipeline with **GitHub Actions** continuous integration and **Vercel** cloud hosting, demonstrating mastery of modern **Python** data processing, **API integration**, and AI-driven automation relevant to manufacturing data-analytics and system-support workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
