## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Delivered **face-to-face IT support** and incident resolution across enterprise environments at HCL Technologies, managing **P1/P2 tickets** via **ITSM tools** (Jira) with **SLA compliance** for banking and ERP business systems supporting 200+ end users.
- Configured, assetized, and prepared **hardware and software installations** for enterprise deployment; managed **change-control procedures** and **UAT coordination** across interconnected business systems including ERP modules, achieving **95% first-contact resolution**.
- Troubleshoot and resolved complex IT incidents independently using **problem-solving initiative** across **Windows desktop and server operating systems, Active Directory**, networking infrastructure, and business applications; escalated and collaborated effectively with cross-functional teams including ops, BAs, and system administrators.
- Created and maintained **technical documentation**, user guides, and runbooks for IT support team; updated internal knowledge bases and shared troubleshooting procedures via **Confluence** to improve team efficiency and reduce repeat incidents by **30%**.
- Provided telephony and ticketing support via enterprise ITSM platforms, delivering **exceptional end-user service** with a positive, approachable demeanor; communicated effectively with colleagues at all levels from frontline users to senior business stakeholders in banking and ERP domains.
- Supported **DNS, DHCP, and networking systems** configuration for business continuity; troubleshoot connectivity and authentication issues across enterprise infrastructure; demonstrated proactive problem-solving and independent ownership of ticket resolution from intake through closure.

## SKILLS

**IT Support & Service Desk** – face-to-face IT support, incident management, ITSM tools (Jira, ticketing systems), SLA management, hardware configuration and installation, assetization, troubleshooting.

**Operating Systems & Infrastructure** – Windows desktop and server operating systems, Active Directory, Group Policy, DNS, DHCP, networking systems configuration.

**Enterprise Business Systems** – ERP support, change-control management, UAT coordination, cross-system integration, business application support.

**Technical Documentation & Communication** – technical documentation creation, user guides, runbooks, knowledge management, Confluence, telephony support, customer-focused communication.

**Programming & Data Technologies** – SQL (PostgreSQL, MySQL, Oracle), Python scripting, REST APIs, Java Spring Boot.

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins CI/CD pipelines.

**Business Intelligence & Analytics** – Power BI, Tableau, data modelling, DAX, Power Query.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

## **PROJECTS**

### **Enterprise Banking & Payments Operations Dashboard (HCL Technologies)**

- Owned **face-to-face and remote IT support** for banking client's SWIFT messaging and payments-operations dashboard; managed **P1/P2 incident response** and production-environment reliability with **99.5% uptime SLA**.
- Troubleshoot complex payment-flow issues across **transaction-processing systems** using **Splunk and CloudWatch monitoring**; collaborated with operations teams and business stakeholders to diagnose root causes and implement timely resolutions.
- Created and updated **technical runbooks and user documentation** for payment-operations team; supported **UAT coordination** and post-implementation triage, ensuring compliance with **GDPR** and financial-services regulatory requirements.

### **ERP & Enterprise Business Systems Support (HCL Technologies)**

- Provided comprehensive IT support for ERP modules and enterprise business systems; managed **change-control procedures** for system configuration updates and coordinated **UAT testing** across interconnected platforms, achieving **95% first-contact resolution** rate.
- Troubleshoot end-user issues across **Windows desktop and server environments, Active Directory authentication**, and **database-level integrations** (PostgreSQL, Oracle, MySQL); communicated technical solutions to non-technical business users with clarity and professionalism.
- Maintained **technical documentation** and support procedures for ERP systems; reduced average ticket resolution time by **28%** through proactive problem-solving and shared knowledge-base improvements via internal wiki systems.

## **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
